Re: *Feezle v. Norfolk Southern Railway Co.*, No. 4:23-cv-00242
Leadership submission regarding East Palestine Train Derailment

Dear Judge Pearson:

I am honored to submit this correspondence in support of the motion for appointment of interim class counsel and a leadership structure in connection with the Feezle case and the overall litigation regarding the February 3, 2023 Norfolk Southern train derailment in East Palestine, Ohio.

As more fully described below and in the included CV, I have been appointed on numerous occasions to lead sprawling, complex litigation such as this. I have developed a reputation with the plaintiffs' bar, the defense bar, and the judiciary as a tenacious but fair and cordial advocate. If appointed to a leadership position in this litigation, I will bring those traits to bear in this important case.

There are several criteria courts use in decisions to appoint interim class counsel, as discussed in our motion. I will address each of those in turn.

1. Work done investigating potential claims. As is evident from the original complaint and first amended complaint filed in Feezle, I and my co-counsel (Shapero & Roloff, Amato Law Firm) have been investigating potential claims in this matter since the derailment occurred. We opted to join forces because of their subject matter expertise in railroad matters and the local area, coupled with my experience in complex class action and mass tort litigation.

We stand for our clients.

I quickly assembled a team within my firm to assist in these efforts. Jo Anna Pollock is one of my partners who has prior experience in environmental class action litigation. Ms. Pollock has been in East Palestine for most of the last month meeting with area residents and investigating matters related to their potential claims, including participating in inspections of the derailed cars and conducting water, soil, and air sampling with the consulting experts she retained to assist in this case. She was also part of the discussion with counsel for Norfolk Southern regarding inspection and testing protocols.

I also enlisted the assistance of another SHC partner, Gary DiMuzio. Mr. DiMuzio has twenty-plus years of experience in environmental litigation and toxic torts related to hazardous chemical exposures. He also spent several days in East Palestine meeting with area residents and observing testing, and has focused his efforts on investigating the specific risks associated with the materials released following the derailment. His prior litigation experience includes analysis of exposure pathways by modeling air and soil/hydrology plumes.

SHC's co-counsel, Shapero & Roloff, collectively have decades of experience in railroad litigation matters. Neal Shapero and Andrew Thompson are located in Cleveland, Ohio and both are members of the Academy of Rail Labor Attorneys. They have litigated safety cases on behalf of railroad employees in Ohio, Pennsylvania, and several other states. They have focused on the cause of the derailment and identifying relevant safety and regulatory standards that may be implicated in this litigation.

2. Prior experience with class actions/complex litigation. I have extensive experience with complex litigation over more than two decades and have served in leadership roles in numerous MDL proceedings covering a wide variety of subject areas.

My most significant MDL experience is my role in MDL 2804, *In re: National Prescription Opiate Litigation*. I was appointed to serve as one of three Co-Lead Counsels in that MDL following the untimely passing of my law partner, Paul Hanly, Jr. Prior to my appointment as Co-Lead Counsel, I was involved in all aspects of that MDL from its inception, including discovery matters, settlement negotiations, and trial preparation.

In connection with the *National Prescription Opiate Litigation*, I was lead trial counsel in state court in Suffolk County, New York in a seven-month jury trial. That trial led to settlements with various pharmaceutical distributors, manufacturers, and pharmacies and the first jury verdict against Teva Pharmaceuticals, one of the largest generic pharmaceutical manufacturers in the world. I also participated in the extensive negotiations that led to the groundbreaking, multi-billion dollar settlements in that litigation with opioid distributors, manufacturers, and the national chain pharmacies.

I was also appointed to the Plaintiffs' Steering Committee in MDL 2672, *In re: Volkswagen "Clean Diesel" Marketing, Sales Practices, and Products Liability Litigation* (N.D. Cal.) Other MDL appointments include serving on the Plaintiffs' Executive Committee ("PEC") in MDL 2244, *In re: DePuy Orthopaedics, Inc. Pinnacle Hip Implant Products Liability Litigation* (N.D. Tex.); on the Plaintiffs' Executive Committee in MDL 2591, *In re Syngenta AG MIR162 Corn Litigation* (D. Kan.); and on the PSC in MDL 2299, *In re Actos Products Liability Litigation* (W.D. La.). A list of my career MDL appointments are included in my CV, which attached to this letter.

3. Knowledge of the applicable law. As discussed, I have significant experience in class action and mass tort matters. In connection with the opioid litigation discussed above, I was appointed as class counsel in a novel "settlement class" that I proposed and which was approved by Judge Polster. My firm has also handled and is presently involved in numerous other class action matters, including a wide variety of consumer-related class actions as well as privacy class actions against a number of technology defendants.

4. Resources committed to the litigation. My firm, Simmons Hanly Conroy, was created by the merger of New York-based Hanly Conroy with the Illinois-based Simmons Browder Gianaris Angelides & Barnerd LLC. SHC brings unparalleled depth, experience, and resources to this case, both in terms of personnel and substantial financial resources. With approximately 80 lawyers and total staff of more than 225, the firm has offices on both coasts as well as in the Midwest where it is headquartered. The firm handles cases only on a contingent-fee basis, and focuses its practice on asbestos personal injury cases, pharmaceutical and other similar mass torts, consumer fraud class actions, antitrust cases, and other complex plaintiffs' side litigation. In addition to myself, other lawyers at SHC have substantial experience, including leadership experience, in complex multidistrict litigations, allowing for depth in staffing as needed. SHC is both willing and able to devote the necessary personnel and substantial financial resources necessary to prosecute this case.

5. Other considerations. In addition to the cases discussed above, I was also counsel for a class of Haitian young men who were victims of sexual abuse. *Gervil St. Louis v. Douglas Perlitz, et al.*, No. 3:13-cv-01132, in the United States District Court for the District of Connecticut (Hon. Robert Chatigny). I and other SHC lawyers fought for years to obtain justice in American courts for those victims.

I believe my frequent appointments to MDL leadership positions is evidence of my reputation among the plaintiffs' bar, and the plaintiffs' MDL bar in particular. I and the members of my firm are well-known and well-respected within the plaintiffs' MDL bar. Further, while litigation is an adversarial process by design, I strongly believe that collaboration with *all* counsel is imperative in any complex litigation where numerous

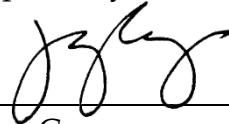

lawyers are involved on both sides of the litigation. Complex cases require significant court resources to decide substantive matters and those resources should not be wasted addressing minor disputes that can be avoided simply by being reasonable.

If the court wishes to inquire about my work in prior complex matters with other members of the judiciary, I have been involved in MDL matters with the following judges:

- Hon. Charles R. Breyer – *In re: Bextra/Celebrex* (MDL 1699); and *In re: Volkswagen “Clean Diesel”* (MDL 2672). Additionally, Ms. Conroy was a member of the team that tried the City of San Francisco’s opioid lawsuit to Judge Breyer. That was a multi-month trial that concluded in July 2022, and Judge Breyer’s findings of fact and conclusions of law were filed in August 2022.
- Hon. Ed Kinkeade – Northern District of Texas, Dallas Division – *In re: DePuy Pinnacle Hip Implants* (MDL 2244). In addition to serving on the Plaintiffs’ Executive Committee, Ms. Conroy was a member of the team that tried four multi-month bellwether jury trials before Judge Kinkeade in 2014, 2016, and 2017, and started a fifth in early 2019 that settled during trial.
- Hon. John W. Lungstrum – District of Kansas, Kansas City Division – *In re Syngenta AG MIR162 Corn Litigation* (MDL 2591).
- Hon. Dan Aaron Polster – *In re: National Prescription Opiate Litigation* (MDL 2804).

I appreciate the Court’s consideration of our motion and my request for appointment as Interim Class Counsel and as Co-Lead Counsel in this important litigation.

Respectfully submitted,

Jayne Conroy

Re: Norfolk Southern East Palestine Train Derailment Cases

Dear Judge Pearson:

Please accept this application for Seth A. Katz's appointment to serve as Co-Lead Counsel and Interim Co-Class Counsel, pursuant to Fed. R. Civ. P. 23(g), in the consolidated litigation relating to the derailment of Norfolk Southern train in East Palestine, Ohio on February 3, 2023.

1. Professional Experience with MDLs and Class Action Litigation:

Mr. Katz has extensive experience in MDL and class action litigation. Mr. Katz was appointed as Co-Lead Counsel in *In re Pradaxa (Dabigatran Etxilate) Products Liability Litigation*, MDL 2385, in the Southern District of Illinois. After 21 months of litigation, the Pradaxa MDL announced a \$650 million settlement program on behalf of approximately 4,000 claimants. Mr. Katz, as one of the primary negotiators of that settlement and as Co-Lead in the MDL, played an active role in settlement administration.

Mr. Katz currently serves on the Plaintiffs' Executive Committee in both *In re Proton Pump Inhibitor Products Liability Litigation*, MDL 2789, and the Coordinated Proceedings in *Gilead Tenofovir Cases*, JCCP No. 5043, pending in California State Court. Both litigations are at the bellwether trial phase of the proceedings.

In addition to the above leadership appointments, Mr. Katz has worked on many class action cases during his career. Mr. Katz is a member of the firm's Executive Committee and heads Burg Simpson's Mass Tort and Class Action practice group. By way of example, Mr. Katz recently litigated a class action case, *David Bell, individually and on behalf of all others similarly situated, v. The 3M Company, et al.*, 1:16-cv-02351-RBJ, filed in Colorado District Court on behalf of residents who alleged that Aqueous Film Forming Foam (AFFF) used at Peterson Air Force Base as a firefighting suppressant contaminated the groundwater in their communities for decades. The class certification motion was fully briefed before the case was stayed and then transferred to the MDL in the District of South Carolina, *In re Aqueous Film-Forming Foams (AFFF) Products Liability Litigation*, MDL 2873. Mr. Katz also served as Liaison Counsel to the court in a nationwide class action in the United States District Court for the District of Colorado against Western Union stemming from the company's practice as it related to unclaimed funds and failure to provide notice of undelivered wired funds. Mr. Katz was appointed co-class counsel as part of a team at Burg Simpson who prosecuted a class action on behalf of a class of Colorado consumers who purchased and installed defective rubber tubing as part of an in-floor radiant heating system. *Helmer, et al. individually and on behalf of other similarly situated v. Goodyear Tire & Rubber Co.*, 12-cv-00685 (D. Colo.). Dating back to the early 2000's, Mr. Katz was part of a trial team for a class action that was tried to jury verdict against Allstate Insurance Company due to a failure to fully compensate its policyholders in accordance with the terms of its policy in St. Clair County Illinois (*Sims v. Allstate*, 99-1-393-A.)

Mr. Katz thrives in team environment and has played various roles in many multidistrict litigations when others in his firm have been appointed to leadership roles. Examples include:

- *In re Yasmin and Yaz (Drospirenone) Marketing, Sales Practices and Products Liability Litigation*, MDL 2100, (S.D. Ill.) – Burg Simpson Shareholder Michael Burg appointed as Co-Lead Counsel and Mr. Katz served as Chair of the Discovery Committee.
- *In re Gadolinium-Based Contrast Agents Products Liability Litigation*, MDL 1909 (N.D. Ohio) – Burg Simpson Shareholder Peter Burg appointed as Co-Lead Counsel and Mr. Katz served as Co-Chair of the Discovery Committee.
- *In re Ortho Evra Products Liability Litigation*, MDL 1742, (N.D. Ohio) – Burg Simpson Shareholders Michael Burg and Janet Abaray appointed as Co-Lead Counsel and Mr. Katz served as Chair of the Discovery Committee.
- *In re Zyprexa Products Liability Litigation*, MDL 1596, (E.D.N.Y.) – Mr. Katz's then-partner Chris Seeger appointed as Liaison Counsel and Mr. Katz served as Chair of the Discovery Committee.

2. Names and Contact Information of MDL Judges:

Hon. David R. Herndon (Ret.) – Judge Herndon presided over the *In re Pradaxa (Dabigatran Etexilate) Products Liability Litigation*, MDL 2385, litigation. Mr. Katz was appointed by Judge Herndon to serve as Co-Lead Counsel.

Hon. Matthew F. Kennelly – Judge Kennelly presided over the *In re Testosterone Replacement Therapy Products Liability Litigation*, MDL 2545, litigation. Mr. Katz was

appointed by Judge Kennelly to serve on the Plaintiffs' Executive Committee.

Hon. Andrew Y.S. Cheng – Judge Cheng is currently presiding over the *Gilead Tenofovir Cases* (JCCP No. 5043) in the Superior Court of California, San Francisco County. Mr. Katz was appointed by Judge Cheng to serve on the Plaintiffs' Executive Committee and is lead trial **counsel** in the first four bellwether cases to be tried.

3. Willingness and ability to immediate commit to time-consuming litigation:

Mr. Katz's past work experience on numerous class action and MDL cases demonstrates his willingness and ability to commit to time-consuming complex litigation. In addition to Mr. Katz, Burg Simpson has seasoned attorneys experienced in class action and complex litigation dedicated to this litigation. Burg Simpson has had an office in Cincinnati, Ohio, since September 2005. Cincinnati shareholders, Melanie S. Bailey and David C. Harman, as well as the associates in that office, focus their practice on mass tort and class action litigation. Mr. Katz is familiar with the demands of class action and complex litigation, and he can represent to this Court that he and his firm are fully committed to take on the responsibilities of this case. Burg Simpson is a firm of approximately 70 lawyers with offices in 7 states, including Ohio. The firm's shareholders have experience in handling large-scale complex litigation throughout the country, including mass tort, class actions, and environmental and toxic exposures. Mr. Katz will have all of the firm's resources available to assist with the prosecution of this case.

4. Willingness and ability to work cooperatively with other plaintiffs' counsel and defense counsel:

As already demonstrated by his work on and following resolution of the motion for temporary restraining order in the *Erdos* case, Mr. Katz is willing and able to work collaboratively and cooperatively with other plaintiffs' counsel and defense counsel. Mr. Katz proactively reached out to plaintiffs' counsel in the *Feezle*, *Canterbury*, *Battaglia*, and *Fisher* cases, to coordinate the efforts of those counsel that had experts in E. Palestine. Mr. Katz also worked cooperatively with Defendants' counsel, Scott Clements and J. Lawson Johnston, to address the immediate issues to allow Plaintiffs' experts to conduct their initial work on site while working within the confines of the requirements imposed by the EPA orders. As a result of such efforts, the parties were able to come to an agreed resolution on Plaintiffs' Motion for Temporary Restraining Order. Additionally, the experts hired by the Burg Simpson and Grant & Eisenhower team arrived in East Palestine at the beginning of this litigation collecting samples for testing (both in E. Palestine and the surrounding impacted communities as well as at the derailment site) and evaluating the tracks and the remains of the derailed train cars. The data collected and results from the samples collected will be important evidence to all plaintiffs who file claims and to all absent class members. Making this evidence available demonstrates the commitment to collaboration that will make this litigation successful for the residents and businesses who have been impacted by this derailment.

Since resolution of Plaintiffs' Motion for Temporary Restraining Order, Mr. Katz and

March 14, 2023

Ms. Graham have routinely communicated the status of remediation efforts and sample collection with other plaintiffs' counsel with filed cases, including holding a meeting that was attended by over 60 attorneys. We have formed an email listserv to keep all plaintiffs' counsel informed about the developments in the litigation. Additionally, as new complaints are filed, Mr. Katz and Ms. Graham contact counsel and attempt to coordinate with those attorneys on the relevant issues, including their interest in inclusion in the organization of a structure for plaintiffs' counsel (including their interest in working cooperatively with other counsel), transfer of cases to this Court, and timing of responsive pleadings. Since the entry of the Court's March 8th Order, there have been four additional filings (three are putative class actions) and Mr. Katz has reached out to counsel in the cases to coordinate with them. Three of the four sets of counsel support the proposed *Feezle* Leadership team and have been included in the leadership structure proposed.

Mr. Katz and Ms. Graham, along with Ms. Conroy and Mr. Morgan, also communicate with Norfolk Southern's counsel Mr. Clements on a regular (almost daily) basis to address issues such as expert access to the derailment site, newly filed complaints, status of remediation including lifting Main Tracks 1 and 2, sample collection and coordination with other counsel, as well as the plan for consolidation pursuant to the Court's March 8th Order.

Furthermore, Mr. Katz has worked on other complex cases with many of the law firms and attorneys proposed for leadership in this case. Whether through his appointments to various MDL committees or other litigations in which Mr. Katz as not sought appointment to a committee but rather simply worked on the case to support court-appointed leadership, Mr. Katz knows and has worked closely with most of the firms involved in this litigation. Recently, Mr. Katz worked with several attorneys at Grant & Eisenhofer, P.A. and Morgan & Morgan on class action settlement arising out of a natural gas explosion affecting thousands of residents and business owners in Massachusetts. *In re: Columbia Gas Cases*, No. 1877cv01343G, Essex County Superior Court. The cooperative prosecution by plaintiffs' counsel resulted in a class action settlement of \$143 million.

5. Access to resources available to prosecute this litigation in a timely manner:

In addition to the ability to work closely with other plaintiffs' counsel to prosecute this case, Burg Simpson can dedicate significant resources to the prosecution of this case on behalf of all community members and business owners affected by the fallout from the train derailment. Burg Simpson has both the personnel and financial resources to commit to the long-term success of this litigation.

In addition to Mr. Katz's own leadership appointments, Burg Simpson has numerous other attorneys with leadership experience in both class action and mass tort litigation. Cincinnati shareholder Melanie S. Bailey was appointed class counsel in *Michael Nagy, et al., on behalf of himself and all others similarly situated v. Wal-Mart Stores, Inc.*, Case No. 01-CI-00854, Boyd County Circuit Court, which resulted in a class action settlement of \$19 million in monetary relief for class members who claimed missed rest and work breaks and time spent working off the clock. Cincinnati shareholder David C. Harman was appointed class counsel in *Davis v. World Wide Consulting Services, Inc.*, 1:18-cv-771 (S.D. Ohio), resulting in a settlement

for class members alleging federal and state wage and hour violations.

Burg Simpson attorneys have served as court-appointed Lead Counsel and Executive Committee positions in several mass tort cases including, *In re Ortho Evra Products Liability Litigation*, MDL 1742, (N.D. Ohio), *In re Gadolinium-Based Contrast Agents Products Liability Litigation*, MDL 1909 (N.D. Ohio), *In re Yasmin and Yaz (Drospirenone) Marketing, Sales Practices and Products Liability Litigation*, MDL 2100, (S.D. Ill.), *In re Heparin Products Liability Litigation*, MDL 1953 (N.D. Ohio), and *In re Depakote Products Liability Litigation* (consolidated proceedings, S.D. of Illinois).

Additionally, Burg Simpson has experience litigating toxic tort cases. Burg Simpson currently represents hundreds of clients in the Camp Lejeune water contamination cases. Attorneys at Burg Simpson have also litigated toxic tort cases relating to issues such as industrial asbestos, underground storage tanks leaking volatile organic compounds, PCB contaminants from a steel mill wastewater, and BTEX contaminants in groundwater.

Burg Simpson associate Luke T. Pepper has extensive experience in railroad litigation and will be working on this case with Mr. Katz and the Burg Simpson team. Through his work representing injured railroad workers, Mr. Pepper has gained knowledge about the operations of the railroad industry and governing regulations and is familiar with the railroad safety rules regarding protection from, the disposal of, and transport of hazardous. His work on prior cases has also involved issues relating to the causes of derailments and the measures recommended by the American Association of Railroads to prevent derailment including car inspection, degree of track gauge, track inspection, hot box detectors, wheel temperature, acoustic bearing detectors, wheel impact detectors, wheel profile detectors, and machine vision systems. He has also deposed retained experts from CTEH, the contractor hired by Norfolk Southern in connection with the East Palestine derailment.

6. Other considerations:

Mr. Katz has worked cooperatively in the past with many of the attorneys in this proposed leadership submission. Mr. Katz's application to serve as Co-Lead Counsel and Interim Co-Class Counsel is supported by the plaintiffs' counsel identified in this leadership submission, which includes over 30 law firms (approximately half of which have offices in Ohio) each of which is committed to the prosecution of this litigation. Furthermore, Mr. Katz strongly supports the application of those attorneys for the appointments listed in this submission. Mr. Katz assures the Court that this litigation and the communities of East Palestine and the impacted surrounding communities will be well served by the attorneys proposed for leadership.

Based on all of the above, it is respectfully submitted that the elements of Fed. R. Civ. P. 23(g) are met and respectfully requested that Mr. Katz be appointed to serve as Co-Lead Counsel

Re: In re Norfolk Southern East Palestine Train Derailment Cases

Dear Judge Pearson,

Pursuant to this Court's Minute Order dated March 8, 2023, please accept this letter application of M. Elizabeth ("Beth") Graham, a partner at the firm of Grant & Eisenhofer, PA, for appointment as Interim Class Counsel and as a Co-Lead in leadership of the cases before this Court involving the Norfolk Southern Train Derailment.

Ms. Graham has led the Complex & Mass Tort Litigation Practice at Grant & Eisenhofer for almost a decade and has practiced law in this area for over thirty years. She is a member of her firm's Executive and Management Committees and has experience in national environmental and mass tort litigation. Most recently she was one of the chief architects of the \$143 million class settlement in the *Columbia Gas Explosion* cases, and a principal negotiator of the *Essure Product Liability* settlement against Bayer, that resulted in the distribution of some \$1.6 billion to injured women. Prior to her representation of plaintiffs for over the past two decades, Ms. Graham was a member of large national law firms that represented clients defending themselves in the same type of complex environmental and class action matters.

Ms. Graham's decades of experience in numerous complex and coordinated litigations, including leadership at the highest level in federal MDLs and state coordinated proceedings, make her ideally suited for a Co-Lead role before this Court. Moreover, Ms. Graham's work

from the outset in the *Erdos* class action evidences not only her legal skills, but her commitment and ability to lead, to build consensus among plaintiffs' counsel while working collaboratively with counsel for Norfolk Southern.

In addition to the personal dedication and leadership that Ms. Graham brings to this litigation, Grant & Eisenhofer is a nationally recognized leader in complex class action litigation and possesses the significant resources and staffing that undoubtedly will be required in a litigation of this magnitude. Ms. Graham and her partner, Mr. Adam Gomez, have already assembled a team of attorneys and paralegals to manage this litigation, and have been working nearly full-time on it since February.

As set forth in the accompanying Motion to Appoint Interim Class Counsel and Plaintiffs' Leadership Structure, the factors set forth in Rule 23(g)(1) for the appointment of interim class counsel, and the guidelines for appointment of a Co-Lead found in the Manual for Complex Litigation 4th, illustrate Ms. Graham's suitability as class counsel and for an appointment to leadership as a Co-Lead. Those factors include:

1. The work counsel has done in identifying or investigating potential claims in the action;
2. counsel's experience in handling class actions, other complex litigation, and the types of claims asserted in the action;
3. counsel's knowledge of the applicable law;
4. the resources that counsel will commit to representing the class; and
5. any other matter pertinent to counsel's ability to fairly and adequately represent the interests of the class.

1. Work Performed to Date: From the day of the derailment, Ms. Graham quickly worked to assemble her team to investigate the potential claims and the harm that occurred because of the derailment. Immediate dispatch to the community with experts to assess the scope of the class parameters, the extent of the toxic contamination, and the cause of the derailment was accomplished under Ms. Graham's direction. She and her team immediately began drafting the appropriate causes of action and updated their knowledge of the law underpinning each.

Ms. Graham and her team hired renowned experts across the relevant disciplines that are expected to be involved in this case, including: two leading Occupational & Environmental Health Services experts with experience in medical monitoring protocols and long-term health effects of the chemicals involved in this case; an expert in Meteorology to define the scope of the air contamination; two of the region's top Railroad experts; a HazMat expert; an Ohio accredited soil testing Lab and analysts; a Hydrogeologist; and a consulting firm experienced in Economic Damage modeling in contaminated property damage cases like this one. G&E lawyers personally spent weeks at the site investigating and working with these experts and continue to do so now. Together with counsel at Lieff Cabraser, Ms. Graham and her firm currently are coordinating with scientists and researchers who are committed to establishing a pilot study for acute exposures and injuries in and around the East Palestine area.

Working with her co-counsel Mr. Seth Katz and his partners, Ms. Graham drafted the TRO application to prevent the destruction of key evidence in less than 24 hours after receipt of Norfolk Southern's letter expressing its intent to destroy evidence and appeared before this Honorable Court on several occasions to address critical issues early. At the outset, Ms. Graham immediately contacted the lawyers with filed cases, with an eye towards developing a robust and inclusive leadership group of individuals that can cooperate and work together.

Her team, together with counsel in the *Feezel* and *Canterbury* cases, Ms. Jayne Conroy and Mr. Michael Morgan, respectively, have spent days educating and coordinating with counsel from across the country to build consensus for protocols that the *Feezel* Leadership team is developing. She organized the first all-counsel meeting among plaintiffs, with some 65 lawyers in attendance. And importantly, Ms. Graham has established a positive working relationship with defense counsel and has established that she can reach resolution of disputed issues quickly. At present, Ms. Graham continues to work directly with Norfolk Southern counsel to establish a plan for consolidated pleadings and discovery, working in union with the other proposed *Feezel* Leadership team Co-Leads.

2. Experience & Legal Knowledge: As mentioned, Ms. Graham's practice has been focused on complex class actions and mass litigation since her admission to practice in 1989, first as defense counsel and then as a plaintiff's attorney. She has been counsel on environmental class actions involving VOC contamination in the air and water in Silicon Valley; a railroad car spill involving oleum and sulphuric acid in Richmond, CA; radon contamination from products used in the foundations of homes in Guernsey County, Ohio; arsenic contamination in the soil and water in Sutter County, CA; rocket fuel in drinking water in San Martin, CA; and more recently ethylene oxide air contamination litigation in New Castle, Delaware and West Virginia.

In addition to environmental cases, Ms. Graham has developed a deep knowledge of class action jurisprudence, and mechanisms for handling mass tort cases involving a variety of disputes. She has been involved in some of the largest cases in the country, and often is called to lecture on her experience in complex case management and resolution. In her first MDL as a plaintiffs' lawyer, MDL 1069, she was appointed as Class Counsel and a member of the Plaintiffs' Executive Committee (*In re American Honda Motor Co., Inc. Dealerships Relations Litigation* (MDL No. 1069)). She was one of the lead negotiators of the \$379 million settlement achieved there. Most recently, Ms. Graham served as Class Counsel and a lead negotiator in *In re Columbia Gas Explosion Cases* (Mass. Sup. Ct.), and as an Executive Committee member and a Lead/Liaison in *In re Essure Product Cases* (California JCCP 4887). A representative list of Ms. Graham's recent MDL appointments are included in her CV, which is attached hereto.

3. Resources & Commitment : Ms. Graham has demonstrated her willingness and ability to commit to time-consuming complex litigations as evidenced by her work in the multi-district and coordinated litigation throughout her career. Her firm, Grant & Eisenhofer, has been a pacesetter in class and mass actions. Its practice groups in securities and corporate governance, environmental, mass torts, antitrust, civil rights, bankruptcy, birth injury, Child Victims' Act, sexual assault, and consumer protection litigation are among the most prominent in the plaintiffs'

bar. The firm represents Attorneys General and state agencies nationwide in hazardous site litigation arising out of historic disposal practices and emissions of contaminants such as PCBs, PFAS, lead and arsenic. With its focus on promoting its clients' priorities, the Firm founded a non-profit organization that harnesses its members' legal skills to pursue significant ESG goals. Dedicated to these values, G&E has worked to protect the rights of states and municipalities suffering lasting damage from toxic environmental harms; consumers injured by faulty manufacturing and other corporate wrongdoing; and patients harmed by pharmaceutical and health care product companies' defective drugs and medical devices, to name just a few. G&E has extensive trial, arbitration, and settlement negotiation experience, with victories that include some of the largest class and group action recoveries in history, both in the U.S. and abroad.

With approximately 70 lawyers and total staff of 150, the firm has offices on both coasts and in the Midwest. Ms. Graham is on her firm's Executive Committee and one of four members of the Management Committee. She stands behind her firm's commitment of personnel and significant financial resources to this case.

Specific to this case, Ms. Graham has marshalled a talented team of lawyers internally, including her partner Mr. Adam Gomez, attorneys Mr. Tudor Farcas, Ms. Caley DeGroot, and Mr. Adam Stoltz, experienced paralegals and case support staff. Each brings a set of skills specifically relevant to this litigation. Ms. Graham's firm has already established an office in Cranberry Township to facilitate ongoing local work by her and this team.

Ms. Graham's partner, Adam Gomez, has been working in East Palestine since the week of the derailment. He personally has been present there with experts and has been coordinating experts and other counsel at the site while overseeing testing and inspection. Like Ms. Graham, his practice focuses on complex environmental litigation, pharmaceutical, medical device, and class action litigation. Prior to joining G&E, Mr. Gomez was an attorney at a national defense litigation firm where he defended clients in high stakes litigation.

Representing residents and businesses harmed by the catastrophic gas explosions in Merrimack Valley, Massachusetts, Mr. Gomez served as Chair of the Insurance Committee. He also was responsible for developing and working with experts in that case, which were critical to resolution. Mr. Gomez serves as a Chair of the Discovery Committee in the *Gilead Tenofovir* Cases, California Judicial Council Coordinated Proceeding (JCCP) No. 5043, is the Co-Chair of the American Association for Justice Tenofovir Litigation Group, and is counsel to victims of the Paradise, California Camp Fire—the deadliest in the state's history—where plaintiffs alleged that fires were sparked by aging, unsafe electrical infrastructure maintained by Pacific Gas & Electric. Mr. Gomez is a member of the Hispanic Bar Association of Pennsylvania, the Philadelphia Trial Lawyers Association and American Association for Justice. Mr. Gomez has been selected for inclusion in the list of "Rising Stars" in Pennsylvania *Super Lawyers*.

5. Other Considerations:

Ms. Graham's reputation among plaintiffs' counsel is evidenced here by the support from other prominent lawyers involved in these cases, and in particular the attorneys from preeminent

firms who are proposed for leadership positions in the *Feezel* Leadership Group. Ms. Graham knows many of these lawyers and law firms well, has worked with many of them in prior and current litigations; she can assure the Court that this case would be well-served by those proposed appointments.

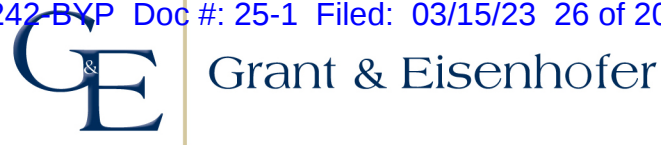

In addition, as a former attorney and partner at large defense firms, Ms. Graham strongly believes that zealous representation requires cooperative and professionally collegial relationships with *all* counsel. Her ability to build consensus and unity among all stakeholders has already been demonstrated in this matter. Ms. Graham's ability to work with her adversaries is clear, as evidenced by her resolution of early critical issues by agreement with counsel for Norfolk Southern, and the continuing cooperation that helps resolves issues that pop up daily. If appointed as a Co-Lead, Ms. Graham will continue to endeavor to reach agreement among *all* parties whenever possible, to conserve resources for disputes that truly must be brought to Court. Given the competing concerns among different segments of the affected population, Ms. Graham believes these skills will well serve this litigation.

Based upon the foregoing, Ms. Graham respectfully requests an appointment to leadership to serve as a Co-Lead of the litigation and as Interim Class Counsel, as set forth in the *Feezel* Motion papers.

Respectfully,

M. Elizabeth Graham
Grant & Eisenhofer, P.A.

Re: East Palestine Train Derailment Litigation

Dear Judge Pearson,

Pursuant to this Court's Order dated March 8, 2023 (4:23-cv-0242 ECF 20), I respectfully submit this letter application to serve as co-lead counsel in non-class cases in the East Palestine train derailment litigation.

1. Relevant Professional Experience:

I respectfully submit that my firm and I are suited for Your Honor's consideration for this immensely important role. I am unflinchingly committed to having the highest level of dedication to representing the untold thousands impacted by this terrible event, should the Court accord me the privilege of serving as co-lead counsel here. I believe the following summary of my credentials and my firm's experience and resources will allow me to serve the plaintiffs and this Court in the manner required in such an important litigation.

I am a Board-Certified Civil Trial Attorney¹ and partner at Morgan & Morgan, one of the nation's prominent plaintiffs' firms. I chair the Morgan & Morgan Complex Litigation Group, which handles a wide array of class action, mass tort, environmental, and product liability matters. Under my leadership, Morgan & Morgan has litigated some of the largest class and mass tort actions in the country. Under my leadership, Morgan & Morgan Complex Litigation Group partners have held roles in many class actions and mass tort actions, including litigation surrounding the national opioid litigation, the Capital One data breach litigation (MDL 2915; E.D. Va.), JUUL vaping products (MDL 2913; N.D. Cal.), PFAS-containing aqueous film forming foams (MDL

¹ This is the highest distinction a trial attorney can attain in the State of Florida and is reserved for those lawyers recognized as "experts" in all aspects of civil trial practice. Less than 1% of Florida Bar Members are Board Certified in Civil Trial Law. I am humbly one of the youngest attorneys in Florida history to attain this distinction.

2873; D. S.C.), and pharmaceutical litigation including Elmiron (MDL 2973; D. NJ.), Proton-Pump Inhibitors (MDL 2789; D. N.J.), and Gardasil (MDL 3036; W.D. N.C.).

Within the Complex Litigation Group, I am honored to have 150 attorneys, dedicated professionals who support the firm's litigation leadership efforts as trial counsel, law and briefing, offensive and defensive discovery, document review and analysis, expert and science development, and any other area where attorney work product is needed.

Morgan & Morgan was a member of the Plaintiff's Steering Committee for the BP Oil spill litigation and was selected as lead trial counsel for the second trial. Recently, I have worked with partners leading the litigation in Porter Ranch, California, where a local community was exposed to toxic substances because of a gas company's failure to properly maintain its facilities. The case involved both mass tort and class claims, resulting in a nearly two-billion-dollar settlement for the affected community. The case required careful balancing of the class and individual plaintiffs' interests—a balance that will be important in this case, as many individuals have retained personal counsel. Morgan & Morgan is also lead trial counsel for the first bellwether case in the *In re Aqueous Film Forming Foams* MDL, which involves pollution of drinking water by chemical companies with cancer-causing toxins.

I am currently part of the lead team in the litigation involving the Tangelo Park Neighborhood in Orlando, Florida. The neighborhood is adjacent to the Lockheed Martin missile plant. The litigation is focused on the alleged offsite exposure of the local community to a host of volatile organic compounds and other constituents of concern. The case, currently pending in the Middle District of Florida, deals with many of the specialties that will be critical in the prosecution of this case including toxicology, fate and transport dispersion models of both air and hydrogeology, and medical experts addressing general and specific causation of end points related to the constituents of concern.

2. Names and Contact Information of Judges:

I have a history of working with numerous judges to bring complex matters to resolution, including, by way of example:

Courtroom Deputy Ann Lindstrand: (407) 835-4202

I have appeared before Judge Dalton on numerous occasions, having litigated ongoing environmental contamination cases in his Court. *See Grayson v. Lockheed Martin Corp.*, Case No. 6:20-cv-1770; *Henderson v. Lockheed Martin Corp.*, 6:21-cv-1363; *Davis v. Lockheed Martin Corp.*, 6:22-cv-81.

3. Willingness and Ability to Immediately Commit to Time-Consuming Litigation:

If selected, I will dedicate the time necessary to manage this litigation and participate in all matters, including fact discovery, expert selection and discovery, motion practice, trial, and settlement negotiations. I fully appreciate the gravity of stating my full commitment of my time, energy, and resources to this matter as co-lead counsel and, if appointed, will discharge my duties accordingly.

4. Willingness and Ability to Work Cooperatively with other Plaintiffs' Counsel and Defense Counsel:

I, along with the rest of my firm, have a history of working collaboratively with other firms in class actions and MDLs—including the opioid litigation, PFAS litigation, and gas explosion cases—to provide the best results for all plaintiffs. Specifically, Morgan & Morgan has previously worked with co-counsel in this litigation on the Merrimack Valley gas explosion litigation in Massachusetts. I and the other highly skilled attorneys in Morgan & Morgan's Complex Litigation Group are supported by state-of-the-art technology, including Slack, Relativity, Teams, and Litify, which empowers the team members to take a true collaborative approach internally and with other firms, regardless of physical location. I also understand the value of working in a cooperative albeit adverse manner with opposing counsel through setting, with input of the Court where necessary, discovery and case management timelines and meeting and conferring in a professional and forthright manner. However, I will make every effort to avoid burdening the Court with disputes that can be resolved without Court intervention.

5. Access to Resources Available to Prosecute this Litigation in a Timely Manner:

As the partner in charge of the Complex Litigation Group, I have the unique ability to ensure that the plaintiffs in this matter have access to all necessary resources, including the financial resources necessary to fund this case. In addition to drawing on the 150 attorneys mentioned above, the firm's Complex Litigation Group also draws on the expertise of dozens of paralegals, along with a retired FBI special agent and a retired HHS-OIG special agent. While primarily based in Florida, Complex Litigation Group attorneys and support staff are in Ohio, Pennsylvania, Kentucky, West Virginia, Michigan, New York, Louisiana, Montana, California, Alabama, Texas, Vermont, and Connecticut. The attorneys who make up this group have impressive diverse backgrounds including litigators from top 50 defense firms, senior government counselors, elected officials, and named partners from highly successful plaintiff firms. In addition to other team members, if appointed, I will enlist the assistance of Frank Petosa and Rene Rocha, two of my partners who are thoroughly experienced in complex environmental and toxic tort litigation. Both Mr. Petosa and Mr. Rocha served in leadership in the BP oil spill litigation and have held leadership positions in several other complex environmental cases.

6. Willingness to Serve as Lead Counsel, a Member of a Steering Committee, or Both:

Although I am honored by the Court's consideration for any role the Court may consider for me, I believe that the most appropriate role in this litigation is Plaintiffs' co-lead in non-class cases; my firm represents many plaintiffs and potential plaintiffs who have been affected by the derailment. Specifically, Morgan & Morgan represents hundreds of individuals, along with multiple municipalities and businesses, and has been contacted for representation by thousands more whose cases are in the initial investigation stage. I believe that the number of clients we represent and the resources we bring to this effort uniquely qualify me to apply for a position as co-lead counsel.

7. Other Considerations:

My team has already dedicated significant time, effort, and resources to conducting legal and factual research in representation of Morgan & Morgan's clients in this litigation. Since February 3, 2023, Morgan & Morgan has been *on the ground* actively working with co-counsel to secure the initial evidence necessary to prosecute this case. We have had team members actively investigating the impacts of the derailment, along with teams of experts. These attorneys and experts have collected important data for several weeks and have actively coordinated with other Plaintiffs' counsel involved in similar activities. Based on our consultation and coordination with other Plaintiffs' counsel, we were able to ensure that our experts mobilized equipment on short notice and obtained data that other teams were unable to. Additionally, one of our attorneys was invited to a Pennsylvania Senate Committee hearing regarding the impacts of the derailment and provided testimony to the Senate and the affected community regarding this disaster.

Lastly, on February 15, 2023, Morgan & Morgan filed a class action complaint on behalf of plaintiffs in Ohio and Pennsylvania in relation to the East Palestine derailment. *See Canterbury, et al. v. Norfolk Southern Corp., et al.*, 4:23-cv-00298 (N.D. Ohio).

My team and I are fully dedicated to obtaining a just and meaningful result for the people of East Palestine.

Respectfully submitted,

Mike Morgan

RE: *Feezle v. Norfolk Southern Railway Co, et al*,
Case no. 4:23-CV-0242 (N.D. Ohio)

Dear Judge Pearson:

Pursuant to this Court's order dated March 8, 2023 (ECF No. 36) in the above-referenced case, please accept this letter application of Mark P. Chalos of the firm Lieff, Cabraser, Heimann & Bernstein ("LCHB"), for Plaintiffs Executive Committee in the Norfolk Southern Railway Co. East Palestine, Ohio, Train Derailment Litigation. As described below, Mr. Chalos is well qualified to serve this Court in light of his significant experience in numerous other MDLs and class actions, as well as his continued selection by federal courts to fulfill leadership roles in those cases. In addition, LCHB can and will bring the necessary resources to a case that will likely be both complicated and expensive to litigate.

Courts may consider the below criteria in reviewing leadership applications. Each is addressed in turn.

1. Professional Experience with MDLs: Mr. Chalos has extensive experience managing complex litigation over more than two decades. In addition to his work in this district on various aspects of *In re National Prescription Opiate Litigation* (MDL 2804), including leading teams developing the claims against manufacturers and retailers, Mr. Chalos has also served on the trial team that recently tried a remanded opioids MDL bellwether trial of public nuisance claims on behalf of the City of San Francisco. The multi-month bench trial in the Northern District of California resulted in a verdict in favor of his client. Mr. Chalos also served as Co-Lead MDL Counsel and Co-Lead Trial Counsel in a consumer class action that was tried to a jury verdict in this district (*In re Whirlpool Front Loading Washer Products Liability Litigation*, MDL 2001 (N.D. Ohio)).

In addition to his leadership appointments in MDLs and other complex litigations listed below, Mr. Chalos has extensive experience in prosecuting environmental contamination lawsuits, including being appointed Co-Lead Counsel in consolidated class action litigation regarding lead contamination of Benton Harbor, Michigan's municipal water system (*Braziel, et al, v. Michigan Department of Environment, Great Lakes, and Energy*, case no. 22-000046-

Judge Benita Y. Pearson

MM (Michigan Court of Claims)). Mr. Chalos also represents community members in Jackson, Mississippi, in a federal class action asserting claims against public officials and private companies for exposing residents to contaminated drinking water. *Sterling v. City of Jackson, Mississippi*, case no. 3:22-cv-531-KHJ-MTP (S.D.Miss). Mr. Chalos previously represented community members in East Tennessee in federal lawsuit against Tennessee Valley Authority arising from coal ash spill that contaminated waterways and adjacent properties with heavy metals and other poisons (*Kingston, Tennessee TVA Coal Ash Spill Litig.*, No. 3:09-cv-09 (E.D.Tenn.)).

Mr. Chalos has been appointed to leadership roles in numerous complex civil proceedings, including: Co-Lead MDL Counsel, *In re Evenflo Co., Inc. Marketing, Sales Practices and Products Liability Litigation* (child booster seats), MDL 2938 (D. Mass); Co-Lead Interim Class Counsel, *Miller v. Ford* (engine failures), Case No. 2:20-cv-01796 (E.D. Ca); Co-Lead Class Counsel, *Weidman v. Ford* (brake failures), Case No. 2:18-cv-12719 (E.D. MI); Co-Lead Class Counsel, *Alger v. FCA US, LLC* (exploding headrests), Case No. 2:18-CV-00360 (E.D. Ca); Plaintiffs Executive Committee, *Murphy v. Graco Children's Products* (child booster seats), Case No. 1:20-CV-03030-LMM (N.D. Ga.); Chair of MDL Expert Committee, *In re General Motors Air Conditioning Marketing and Sales Practices Litigation* (faulty AC systems in vehicles), MDL 2818 (E.D. MI); Plaintiffs Steering Committee, *In re Exactech Polyethylene Orthopedic Products Liability Litigation* (defective joint replacements), MDL 3044 (EDNY); Plaintiffs Steering Committee, Federal/State Litigation Liaison, *In re New England Compounding Pharmacy, Inc. Products Liability Litigation* (fungal meningitis/infections), MDL 2419 (D. Mass); Plaintiffs Steering Committee and Co-Chair Plaintiffs Expert Committee, *In re Navistar Diesel Engine Product Liability Litigation* (defective diesel emissions systems), MDL No. 2223 (N.D. Ill); and Plaintiffs Steering Committee, *In re Ford Switch Fire Litigation* (fire-prone cruise control systems), Texas state court MDL, Travis County, Texas, Cause No. D-1-GN-08-000901. Mark also represents clients in many centralized litigations across the country.

In addition to serving on the Vanderbilt Law School adjunct faculty teaching “The Practice of Aggregate Litigation,” Mr. Chalos also was a drafting team leader for the Duke Law School, Bolch Judicial Institute’s “Guidelines and Best Practices for Large and Mass-Tort MDLs,” (Second Edition, September 2018).

A list of Mr. Chalos’ other qualifications and relevant experience is included in his CV, which is included as Exhibit A.

2. Work in this litigation to date: As a result of its experience with analogous incidents of toxic environmental releases, LCHB has been able to promptly retain a team of renowned experts with directly relevant experience, to begin immediate work on behalf of affected members of the community, including: (1) a distinguished professor at a university in Ohio, who has researched and published widely on the acute and long-term effects of toxic exposures on pulmonary function, to conduct pulmonary function testing of symptomatic residents; (2) physician and professor of pediatrics at an Ohio university and Chief of Neonatology Division at

an Ohio children's hospital, to evaluate health effects of exposure on babies, children, and pregnant women; (3) professor of Preventive Medicine and Environmental Health/ Chair of the Department of Epidemiology and Environmental Health at a university in a contiguous state, to research the nature and scope of community-wide exposure and effects; (4) professor at an Ivy League university, who specializes in the study of atmospheric turbulence and dispersion, the analysis of meteorological and air quality data, and the development, evaluation, and application of air quality models, to assess the scope and geographic area of exposure to the toxic byproducts of vinyl chloride and other toxics released during the incident; and (5) a chemical process safety expert with decades of experience in characterizing the nature and amounts of various chemicals released into the environment during accidental releases, and the chemical reactions that transform those substances into other toxic materials in air, soil and water.

3. Willingness and ability to work cooperatively with other plaintiffs' counsel and defense counsel: Mr. Chalos's frequent appointments to MDL and class action leadership positions is evidence of his reputation among the plaintiffs' bar, and the plaintiffs' MDL and class action bars, in particular. Further, while litigation is an adversarial process by design, Mr. Chalos strongly believes that collaboration with *all* counsel is imperative in any complex litigation where numerous lawyers are involved on both sides of the litigation. Complex cases require significant court resources to decide substantive matters and those resources should not be wasted addressing minor disputes that can be avoided by being reasonable and professional.

4. Willingness and ability to immediately commit to time-consuming litigation: Mr. Chalos has demonstrated his willingness and ability to commit to time-consuming multidistrict litigations as evidenced by his dedication to the multidistrict litigation process over the past decades and the significant responsibilities he has accepted in each litigation. LCHB has devoted significant resources to prosecuting multiple MDLs, including being involved in multiple MDLs at once. Mr. Chalos and LCHB are familiar with the demands of such cases.

5. Access to resources available to prosecute this litigation in a timely manner: With more than 100 lawyers, the firm has offices in Nashville, New York, San Francisco, and Munich, Germany. Described by *The American Lawyer* as "one of the nation's premier plaintiffs' firms," LCHB enjoys a national reputation for professional integrity and the successful prosecution of our clients' claims. The firm has been recognized repeatedly as one of the nation's top plaintiffs' law firms, has prosecuted hundreds of class actions on behalf of plaintiff classes, has served as lead class, MDL counsel, and other court-appointed leadership roles in numerous cases. LCHB has recovered more than \$124 billion for its clients: twenty-eight cases resolved for over \$1 billion; another 55 cases resulted in verdicts or settlements in excess of \$100 million. LCHB possesses sophisticated legal skills and the financial resources necessary for the handling of large, complex cases, and for litigating against some of the nation's largest corporations. The National Law Journal has recognized LCHB as a member of its Plaintiffs' Hot List Hall of Fame, "representing the best qualities of the plaintiffs' bar and demonstrating unusual dedication and creativity."

Judge Benita Y. Pearson

LCHB has served as class counsel in some of the largest environmental disaster cases in our nation's history. LCHB founding partner Elizabeth J. Cabraser served on the Plaintiffs Steering Committee in the Deepwater Horizon oil spill in the Gulf of Mexico, which resulted in more than \$13 billion being paid to compensate claimants for their losses. Ms. Cabraser was also court-appointed Class Counsel in the 1989 Exxon-Valdez spill in Alaska that resulted in an award to the plaintiff class in the amount of \$977 million.

LCHB also served as court-appointed Plaintiffs Liaison Counsel and Lead Class Counsel, and chaired the Plaintiffs Litigation Committee, in coordinated proceedings arising from the 1991 Southern Pacific train tanker derailment. The derailment caused a spill of 19,000 gallons of toxic pesticide into the Sacramento River and is considered the worst inland ecological disaster in California history (*In re Sacramento River Spill Cases I and II*, JCCP Nos. 2617 & 2620 (Cal. Sup. Ct.)). Settlement proceeds were distributed pursuant to court-approved allocation plan to four certified plaintiff classes: personal injury, business loss, property damage/diminution, and evacuation.

In addition to Mr. Chalos, the LCHB team will also include senior lawyers with decades of MDL and class action experience, including in environmental contamination cases:

Robert Nelson is an attorney with 35 years of experience, representing clients from all 50 states and numerous countries in complex litigation, including class actions and mass tort actions. Mr. Nelson has served as court-appointed Lead or Co-Lead Counsel in several dozen state and federal coordinated proceedings, as well as in close to 40 class actions. Mr. Nelson has extensive experience leading environmental contamination litigation, including serving as Class Counsel against Plains All-American Pipeline in an action arising out of the 2015 oil spill off the coast of Santa Barbara; the \$230 million settlement received final settlement approval in 2022 (*Andrews, et al. v. Plains All American Pipeline, et al.*, No. 2:15-cv-04113-PSG-JEM (C.D. Cal.)). Mr. Nelson also served as class counsel in an action arising from the methane gas leak in the town of Porter Ranch, a suburb of Los Angeles, that injured residents and forced the evacuation of 15,000 residents from the town. A property class case settled for \$40 million in 2022 and the individual actions settled for \$1.8 billion. (*In re: Southern California Gas Leak Cases (Porter Ranch)*, JCCP No. 4861 (Los Angeles Sup. Ct.)).

In this district, Mr. Nelson was previously appointed to the Plaintiffs Executive Committee in litigation against welding rod industry (*In re Welding Fume Products Liability Litigation*, MDL 1535 (N.D. Ohio)). Mr. Nelson served as counsel for the Attorneys General of 13 states in litigation against the tobacco companies that culminated in the 1997 Master Settlement Agreement on behalf of all 50 states, a settlement valued at \$246 billion, the largest settlement in history. He also served as Class Counsel in a RICO action against State Farm involving State Farm's funding the campaign of an Illinois Supreme Court justice, and then lying about doing so. Mr. Nelson was awarded Public Justice's Trial Lawyer of the Year award for his work on the case, which settled for \$250 million on the day of trial.

Ill.); *In re Imprelis Herbicide Marketing, Sales Practices & Products Liability Litigation*, MDL No. 2284 (E.D. Pa.); *Smith v. State Farm Mut. Auto. Ins. Co.*, No. 1:13-cv-02018 (N.D. Ill.); *In re Whirlpool Corporation Front-Loading Washer Products Liability Litigation*, MDL No. 2001 (N.D. Ohio); and *In re Mercedes-Benz Tele Aid Contract Litig.*, MDL No. 1914 (D.N.J.).

Re: **In re: Feezle et al. v. Norfolk Southern Railway Co., et al.**
Civil Action Number: 4:23-CV-00242

Dear Judge Pearson:

Pursuant to Your Honor's Order of March 8, 2023, I write in application for a seat on the Plaintiff's Executive Committee in the above-named litigation. I am the lead counsel in *Snyder et al. v. Norfolk Southern Railway Co.*, Case No. 4:23-cv-0344 and *Dettmer et al. v. Norfolk Southern Railway Co.*, Case No. 4:23-cv-0345. I bring both years of personal experience litigating complex matters including Opioid, Tobacco, Medical Device, Lead Poisoning, and Asbestos cases as well as Motley Rice LLC's full compliment of resources and support.

I can contribute to the experience to leadership in this litigation. My skill set includes complex case investigation, case management, discovery, trials, and resolution across multiple legal disciplines. Most importantly, I believe my in-depth knowledge and experience of working on thousands of toxic exposure cases will be an asset to this Executive Committee. I have a long history showcasing my proven ability to lead complex and consolidated cases effectively and efficiently. My history of working collegially with members on both sides of the bar will foster professional and economical solutions to the common problems in mass tort litigation.

I graduated the George Washington University Law School in May of 1998. I am a member of the bar of the State of Rhode Island and admitted to practice before the United States District Court for the District of Rhode Island. I joined Motley Rice, LLC as an associate in 1998 and was promoted to member in 2008. I spent the first several years of my practice litigating cases against the tobacco and asbestos industries.

1. Professional Experience with MDLs: Motley Rice has been in leadership positions in over a dozen MDLs including *Oil Spill by the Oil Rig “Deepwater Horizon”* (MDL 2179), *In Re: Kugel Mesh Hernia Patch Products Liability Litigation* (MDL 1842), *In Re: Volkswagen “Clean Diesel” Marketing, Sales Practices, and Products Liability Litigation* (MDL 2672), Transvaginal Mesh MDLs (MDLs 2187, 2325, 2326, 2327) and *In Re: National Prescription Opiate Litigation* (MDL 2804). These litigations span diverse practice areas including securities law, product liability, environmental law, and personal injury. However, Motley Rice consistently contributes leadership in investigation, case management, discovery, trial, and resolution.¹

I have worked closely on MDL and state consolidations such the first hernia mesh MDL *In Re: Kugel Mesh Hernia Patch Products Liability Litigation* (MDL 1842) and its state companion *In re: Kugel Mesh*, 2008-PC-9999. I have litigated lead and asbestos cases across the country, with a significant portion of that practice based in Ohio.

2. Willingness and ability to immediately commit to time-consuming litigation: I, and my firm, have demonstrated willingness and ability to commit to time-consuming multidistrict litigations. Motley Rice has held leadership positions in over a dozen MDLs. I have been lead-counsel in complex cases, such as *The City of Boston, et al. v. Purdue Pharma L.P., et al.*, C.A. No. 1884CV02860-BLS2, *State of New Hampshire v Johnson and Johnson, et al.* 217-2018-CV-000678, and *State of Rhode Island v. Purdue Pharma, L.P., et al.*, C.A. No. PC-2018-4555. In my role as lead-counsel for these cases I was responsible for coordinating the activities of dozens of lawyers from around the country, devising and implementing strategies to litigate claims efficiently and effectively. In both the opioids litigation and the *Kugel Mesh* MDL I was deeply involved in the substantive litigation from pre-trial filing through trials.

3. Willingness and ability to work cooperatively with other plaintiffs’ counsel and defense counsel: Both I and my firm have a nationally recognized reputation for cooperation and collegiality on both sides of the bar. Understanding litigation is by design an adversarial process, it is our aspiration to always conduct this work with collaboration, hard work, respect, and by receiving different viewpoints.

This approach has earned me and Motley Rice the friendship of colleagues and respect of defense counsel. My approach enables me to uniquely navigate the differing viewpoints often at play in complex litigation while brokering consensus on key issues.

4. Access to resources available to prosecute this litigation in a timely manner: With offices in six states, Motley Rice has a nationally based plaintiffs’ practice and the firm has vast experience litigating complex cases nationally, including successful litigation against the asbestos

industry, the tobacco industry, the opioid industry, on behalf of victims of terrorism, and many medical device/drug mass torts.

To this case Motley Rice brings experienced lawyers including Joseph Rice, Vincent Greene, Jonathan Orent, Dennis Costigan, Kate Menard, John Hurst, Jim Brauchle, and Robert Haefe. Motley Rice additionally has established and competent local counsel in Michael O'Shea of the Lipson O'Shea Legal Group in Cleveland, Ohio and Grant MacKay of Cleveland, Ohio. Importantly, Mr. MacKay is originally from East Palestine and has been a ubiquitous presence and advocate for the town since this disaster.

Given Motley Rice's history of work on MDLs and complex litigation, the firm understands the scope of commitment – including financial, staffing and time commitments – necessary to afford the quality of representation that each Plaintiff deserves, and we are fully committed to representing all to the greatest extent possible. In addition to Motley Rice's varied MDL practice, my firm has litigated class actions against Norfolk Southern in the past. My firm was heavily involved in the litigation surrounding a derailed train causing property damage, physical injury, and economical loss in Graniteville, South Carolina. Motley Rice has two class cases filed before Your Honor and represents hundreds of clients affected by the Norfolk Southern train derailment. This team and Motley Rice's national reach will ensure this project is appropriately funded and staffed.

5. Willingness to serve as a member of executive committee: I am ready, willing, and able to serve in any capacity this Court sees fit. However, I believe that the most appropriate role is as a member of the Executive Committee.

6. Other Considerations: Professionally I have received the following honors:

- **Beyond the Call of Duty Award** 2001 the Childhood Lead Action Project
- **Best Lawyers®** 2017–2023 Product liability litigation – plaintiffs
- **Best Lawyers®** 2023 Consumer Protection Law

was President of the Rhode Island Association for Justice for the 2015 term. I am currently a board member and finance chair for the Rhode Island Center for Justice.

Finally, my application to serve as a member of the Plaintiffs' Executive Committee is supported by the plaintiffs' counsel listed on the attached Exhibit A. I likewise support the applications of those attorneys for the appointments listed there. I know those lawyers and law firms well, have worked with many of them in prior MDLs, and can assure the Court that this potential consolidation would be well-served by those appointments.

FIRM RESUME

FIRM OVERVIEW

Motley Rice attorneys have been at the forefront of some of the most significant and monumental civil actions over the last 30 years. Our experience in complex trial litigation includes class actions and individual cases involving securities and consumer fraud, occupational disease and toxic tort, medical drugs and devices, environmental damage, terrorist attacks and human rights abuses.

Tobacco Master Settlement Agreement

In the 1990s, Motley Rice attorneys and more than half of the states' attorneys general took on the tobacco industry. Armed with evidence acquired from whistleblowers, individual smokers' cases and tobacco liability class actions, the attorneys led the campaign in the courtroom and at the negotiation table to recoup state healthcare funds and exact marketing restrictions from cigarette manufacturers. The effort resulted in significant restrictions on cigarette marketing to children and culminated in the \$246 billion Master Settlement Agreement, the largest civil settlement in U.S. history.

Asbestos Litigation

From the beginning, our lawyers were integral to the story of how "a few trial lawyers and their asbestos-afflicted clients came out . . . to challenge giant asbestos corporations and uncover the greatest and longest business cover-up of an epidemic disease, caused by a product, in American history."¹ In addition to representing thousands of workers and family members impacted by asbestos, Motley Rice has represented numerous public entities, and litigated claims alleging various insurers of asbestos defendants engaged in unfair settlement practices in connection with the resolution of underlying asbestos personal injury claims. This litigation resulted in, among other things, an eleven-state settlement with Travelers Insurance Company.

Anti-Terrorism and Human Rights

In *In re Terrorist Attacks on September 11, 2001*, Motley Rice attorneys brought a landmark lawsuit against the alleged private and state sponsors of al Qaeda and Osama bin Laden in an action filed on behalf of more than 6,600 family members, survivors, and those killed on 9/11—including the representation of more than 900 firefighters and their families. In prosecuting this action, Motley Rice has undertaken a global investigation into terrorism financing.

Our attorneys also initiated the *In re September 11 Litigation* and negotiated settlements for 56 families that opted out of the Victim Compensation Fund that far exceeded existing precedents at the time for wrongful death cases against the airline industry.

BP PLC Oil Spill Litigation

In April 2010, the Deepwater Horizon disaster spilled approximately 4.9 million gallons of oil into the water, killed 11 oil rig workers, devastated the Gulf's natural resources and profoundly harmed the economic and emotional well-being of hundreds of thousands of people. The Deepwater Horizon Economic and Property Damages Settlement is the largest civil class action settlement in U.S. history. Motley Rice co-founder Joseph Rice is a Plaintiffs' Steering Committee member and

served as one of the primary negotiators of that Settlement and the Medical Benefits Settlement. In addition, Rice led negotiations in the \$1.028 billion settlement between the PSC and Halliburton Energy Services for its alleged role in the oil spill. Motley Rice attorneys continue to hold leadership roles in the litigation and are currently working to ensure that all qualifying oil spill victims are fairly compensated.

Volkswagen 'Clean Diesel' Litigation

In 2015, Volkswagen Group's admission that it had programmed more than 11 million vehicles to cheat emissions tests and bypass standards sparked worldwide outrage. Motley Rice co-founder Joe Rice served as one of the lead negotiators in the nearly \$15 billion settlement deal reached in 2016 for U.S. owners and lessees of 2.0-liter TDI vehicles, the largest auto-related consumer class action settlement in U.S. history. Rice and other Motley Rice attorneys also helped recover up to \$4.4 billion with regards to affected 3.0-liter vehicles.

Transvaginal Mesh Litigation

Motley Rice attorneys represent thousands of women and have played a leading role in litigation alleging debilitating and life-altering complications caused by defective transvaginal mesh devices. In 2014, Joe Rice, with co-counsel, negotiated the original settlement deal reached in *In re American Medical Systems, Inc., Pelvic Repair Systems Products Liability Litigation* that numerous subsequent settlements with the manufacturer were modeled after.

Opioid Litigation

Motley Rice is at the forefront of national opioid litigation and represents dozens of governmental entities, including states, cities, towns, counties and townships in ongoing investigations and litigations filed in both the National Prescription Opiate Litigation, as well as in state courts that allege deceptive marketing and/or overdistribution of opioids. Firm co-founder Joe Rice is one of three co-leads for the MDL coordinated in the Northern District of Ohio. Also holding leadership positions in the MDL are Motley Rice attorneys Linda Singer (DC, NY), co-chair of the Manufacturer/Marketing Committee, and Lou Bograd (DC, KY), co-chair of the Law & Briefing Committee. Joe Rice led negotiations for a proposed \$26 billion settlement reached in July 2021 with Johnson & Johnson and the nation's "Big Three" opioid distributors, AmerisourceBergen, Cardinal Health and McKesson for the more than 3,000 litigating communities in the MDL. Motley Rice attorneys also led negotiations for the \$260 million settlement that was reached on the eve of trial in 2019 to resolve the MDL's first track of claims filed by two Ohio subdivisions, Summit County, a Motley Rice client, and Cuyahoga County.

NORFOLK SOUTHERN CORPORATION; and NORFOLK SOUTHERN RAILWAY COMPANY, Case No. 4:23-cv-00440

Application for Appointment to Plaintiffs' Executive Committee

Dear Judge Pearson:

I respectfully submit this Application for appointment to the Plaintiffs' Executive committee. My firm has been retained by Plaintiffs in the above-captioned case and is investigating claims of many impacted residents in and around East Palestine. Enclosed is a copy of my firm's resumé (Exhibit A) and list of counsel supporting my application (Exhibit B).

I am a founding partner of Seeger Weiss LLP. Our firm is broadly regarded as one of the nation's preeminent trial law firms, with an established track record of helping lead some of the most complex and impactful cases on behalf of injured parties. Our cases frequently are at the forefront of the law on issues of importance to our communities, whether redressing the Opioid epidemic, obtaining life-changing benefits for former NFL players and their families, litigating on behalf of thousands of veterans injured by 3M's defective earplugs, seeking long-overdue justice for the family of Henrietta Lacks, or, here, holding Defendants accountable for the damage they have caused to the people of East Palestine and the surrounding area.

During the past 25 years, I have had the privilege to lead some of the most groundbreaking and socially consequential litigations in the U.S., securing key jury verdicts and negotiating innovative, effective mass- and class-action settlements collectively (and at times individually) recovering tens of billions of dollars for injured or aggrieved individuals.

In the NFL Concussion Litigation, in which I served as Co-Lead Counsel, the Hon. Anita B. Brody wrote that the "successful implementation of the [NFL] settlement agreement to date is a credit to the work done by the attorneys at Seeger Weiss." Regarding my work in the Syngenta litigation, Special Master Ellen Reisman wrote, "Mr. Seeger served ably as the chair of the [Plaintiffs' Settlement Negotiating Committee], keeping discussions going even when they (frequently) seemed in danger of breaking down. It is the judgment of Special Master Reisman and Special Master Stack that without Mr. Seeger's involvement in the process, a resolution would not have been reached." In adopting

Hon. Benita Y. Pearson

Special Master Reisman’s report in Syngenta, Hon. John Lungstrum wrote that I “contributed more than any other attorney in accomplishing the settlement of the litigation.”

I believe that one of my greatest strengths is my ability to build broad consensus, in bringing together diverse plaintiffs, in generating agreement among peer and rival firms, and in unifying leadership groups of all sizes. I recognize the importance of taking reasonable positions in negotiations, whether with opposing parties and counsel, or with different factions of plaintiffs and co-counsel. The Syngenta litigation, for example, required delicate negotiations that spanned several jurisdictions, and required me to balance the interests of many different constituencies, including federal and state classes as well as tens of thousands of individual plaintiffs. The interests of these plaintiff constituencies were not always neatly aligned, and failure to bring any of them into the fold would have derailed the prospects for a global settlement. In addition to bringing various plaintiff groups to consensus, I also had to build trust with court-appointed mediators and with Syngenta itself, which had fought the litigation spiritedly. I brought these disparate interests together to achieve a \$1.51 billion settlement.

Relevant Experience and Court Appointments

I bring to this matter insights gained from my work as court-appointed Co-Lead Counsel for the plaintiffs in the *NFL* litigation. The case presented significant legal and procedural challenges, including federal preemption, causation, and sub-classing issues. It was a potential quagmire that could have delayed the relief our class members urgently needed. As chief negotiator, I navigated these complexities and successfully led settlement negotiations to obtain an uncapped monetary award fund that to date has resulted in the distribution of over \$1 billion and a medical testing program for thousands of former NFL players—results overwhelmingly supported by the class.

I served on the PSC and Settlement Committee in *In re Volkswagen “Clean Diesel” Mktg., Sales Practices and Prods. Liab. Litig.*, MDL No. 2672 (N.D. Cal.). My colleagues and I worked intensively for the better part of a year to obtain comprehensive settlements with Volkswagen worth more than \$20 billion for class members (including an optional “buyback” program), plus billions more in environmental relief. Volkswagen, and not the class members, paid class counsel’s fees and costs. Similarly, in *In re Zyprexa Prods. Liab. Litig.*, MDL No. 1596 (E.D.N.Y.), in which I was appointed as Liaison Counsel, I was one of the chief negotiators of a \$700 million settlement, followed by a \$500 million second-round settlement that benefitted tens of thousands of individuals, where I uniquely served as a liaison between plaintiffs’ and defense counsel. For the past several years, I’ve served on the court-appointed PEC and Negotiating Committee in *In re National Prescription Opiate Litig.*, MDL No. 2804 (N.D. Ohio), in which I also served as Co-Lead Counsel for an innovative Negotiation Class. To date, our Committee (along with State Attorneys General) has secured global settlements that will provide over \$40 billion in gravely-needed funding to help abate the Opioid epidemic. I also serve as court-appointed Interim Co-Lead Counsel in *In re 3M Combat Arms Earplug Prods. Liab. Litig.*, MDL No. 2885 (N.D. Fla.); *In re Philips Recalled CPAP, Bi-Level PAP, and Mechanical Ventilator Products Litig.*, MDL 3014 (W.D. Pa.); and *Lindsay Aberin v. American Honda Motor Company, Inc.*, Case No. 16-cv-04384-JST (N.D. Cal.).

Even when I have not been selected for a leadership role, courts and peers have called on me to “unofficially” lead negotiations. For example, in the *Syngenta* litigation, although I was not appointed to the PSC, I was made the chair of the Negotiating Committee by Judge Lungstrum, resulting in a \$1.51 billion nationwide settlement.

Hon. Benita Y. Pearson
March 15, 2023, Page 3

My success at the negotiating table is built on my success in the courtroom. Counsel know I am willing and able to take large, complex cases to trial. On many occasions, my bellwether trial successes have led to global settlements. For example, *In re Vioxx Prods. Liab. Litig.*, MDL No. 1657 (E.D. La.), in which I was appointed as Co-Lead Counsel, settled for \$4.85 billion just months after my colleagues and I obtained a \$47.5 million bellwether jury verdict. Similarly, in *In re Chinese-Manufactured Drywall Prods. Liab. Litig.*, MDL No. 2047 (E.D. La.), I was appointed Chair of the Plaintiffs' Trial Committee and lead trial counsel in a string of bellwether trials. The successful verdicts in those cases paved the way for a national settlement valued at approximately \$1 billion.

Judges familiar with my work include: *Vioxx & Chinese-Manufactured Drywall*: Hon. Eldon E. Fallon, 504-589-7545; *Volkswagen "Clean Diesel"*: Hon. Charles R. Breyer, 415-522-2062; *NFL Players' Concussion Injury*: Hon. Anita B. Brody, 215-597-3978; *Syngenta*: Hon. John W. Lungstrum, 913-735-2320; *Endress v. GM & Aberin v. Honda*: Hon. Jon S. Tigar, 510-637-3547; *3M Combat Earplugs Litig.*: Hon. M. Casey Rodgers, 850-435-8448; *CPAP*: Hon. Joy Flowers Conti, 412-208-733; *Elmiron & Invokana*: Hon. Brian Martinotti, 973-645-6651; *Social Media*: Hon. Yvonne Gonzalez Rogers, 510-637-3540.

Willingness and Ability to Commit the Required Time and Resources

My firm possesses ample personnel, funding, and other resources to prosecute this matter in a timely and efficient manner. In addition to our time, we have invested millions of dollars in cases in which we have leadership positions. As my track record demonstrates, I will prioritize the interests of all claimants and am personally ready, able, and eager to commit to whatever path is needed to obtain the most favorable outcome in this litigation—trial, negotiation, or both. Our team includes my partner Matt Pawa, who is chair of the firm's environmental practice group and a pioneer in the field of environmental litigation with broad and deep experience in cleanup and damages actions, including against oil companies for polluting New Hampshire groundwater, against 3M and Du Pont for contamination of Vermont state resources with PFAS chemicals, and against Monsanto for pollution of states' and cities' waterways with PCBs. Our team also includes my partner Dave Buchanan, whose decades of experience in Mass Torts include serving as trial counsel in bellwether cases in *In re Vioxx*, and *In re TRT*, and on Plaintiffs' executive and steering committees in the *NFL* litigation, *In re Vioxx*, and *In re National Prescription Opiates*. Most recently, Mr. Buchanan served as lead trial counsel in several bellwethers in *In re 3M*, where he was also the Co-Chair of the Plaintiffs' Steering Committee. Mr. Buchanan and our associate and team member Max Kelly led general discovery and pretrial practice in that litigation, and their trial successes included a \$55 million verdict for a former army ranger suffering from hearing loss and tinnitus.

Cooperation With Other Counsel

With each appointment, a court entrusts leadership with the responsibility to lead the litigation efficiently and effectively. I maintain the highest standards of ethics and collegiality and expect no less from my colleagues. My commitment to effective cooperation is shown by the settlements I have helped broker in even the most high-pressure, publicly scrutinized cases.

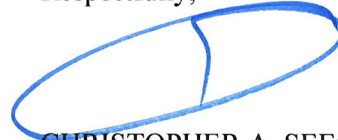

I believe deeply that, when carried out with skill, mutual respect, and common sense, litigation serves a critical role in our democracy. I am therefore committed to sharing the experience, knowledge, and insight I have gained with my current and future colleagues by teaching, speaking, and writing on mass torts, MDLs, and class actions, as outlined in my resumé. Equally important, I am focused on ways to *improve* how the bar and the bench work together to best achieve the end goal—ensuring that

wronged parties get fair and effective representation and relief. Toward that end, I serve on the Board of Advisers for the Center on Civil Justice at New York University School of Law and the Leadership Council for the Bolch Center at Duke Law School, through which my colleagues and I contribute to the development of best practices for MDLs.

I would be honored to serve the interests of the plaintiffs in these cases.

Respectfully,

A handwritten signature in blue ink, consisting of a large, stylized 'C' followed by a vertical line and a smaller 'S'.

Re: Leadership Application, re:
Norfolk Southern East Palestine Train Derailment Litigation,

Dear Judge Pearson:

Please accept this letter application of Mikal Watts of the firm WATTS GUERRA LLC Conroy ("WG"), for a leadership position in the coordination proceedings regarding the *Norfolk Southern East Palestine Train Derailment Litigation*. As described below, Mr. Watts is exceptionally qualified to serve this Court considering his significant experience in numerous other MDLs and his continued selection by federal courts to fulfill leadership roles in those cases. In addition, WG can and will bring the necessary resources to a case that will likely be both complicated and expensive to litigate.

Courts typically identify six criteria to consider in reviewing applications. Each is addressed in turn.

1. Professional Experience with MDLs: Ms. Watts has extensive experience with complex litigation over more than two decades. Mr. Watts has been appointed to leadership positions in numerous MDLs. He has served on the Plaintiff Steering Committee ("PSC") in *In Re: FEMA Trailer Formaldehyde Products Liability Litigation*, MDL 1873, *In Re: Oil Spill by the Oil Rig "Deepwater Horizon" in the Gulf of Mexico* (MDL 2179), *In re: Valsartan N-Nitrosodimethylamine (NDMA) Contamination Products Liability Litigation* (MDL 2875), *In re: Texas Opioid Litigation* (Texas MDL No. 18-0358), *In re: Juul Labs, Inc.* (MDL 2913), *In re: Zantac Products Liability Litigation* (MDL 2924), *In re: Paraquat Cases* (JCCP 5031) (court-appointed PSC) and in *In re: Hair Relaxer Marketing Sales Practices and Products Liability Litigation* (MDL 3060), and co-liaison counsel in *In re: Kincaid Fire* (JCCP 5157); *In re: Zogg Fire* (JCCP 5165) *In re: Bobcat Fire* (20STCV42356-lead case) and *In re: Dixie Fire* (JCCP 5208). Mr. Watts has also served as co-lead counsel *In Re: Acetaminophen – ASD/ADHD Products Liability Litigation* (MDL 3043), *In re: Pradaxa (Dabigatran Etexilate) Products Liability Litigation* (MDL 2385) and in *In Re: Stand 'N Seal* (MDL 1804), and as co-

liaison counsel, *In Re: Silica* (MDL 1553). Members of WATTS GUERRA served as co-lead counsel in *In Re Incretins Mimetics Products Liability Litigation* (MDL 2452) and *In re: Syngenta Litigation* (Minnesota Consolidated MDL).

In addition to prior membership on PSCs, Mr. Watts has personally tried as lead trial counsel the “first in the nation” trial cases for major pharmaceutical and product liability litigations consolidated into MDLs, including trial of the first *Ford/Firestone* tire lawsuit (see MDL 1373); the first *Rezulin* plaintiffs’ verdict (see MDL 1348); the only plaintiffs’ verdict in *Sulzer* hip implants (see MDL 1401); trial of first *Baycol* case (see MDL 1431); trial of first welding rods case during MDL 1525; trial of two bellwether cases during *In re Vioxx* (see MDL 1657); and the only Plaintiffs’ verdict during *In Re: Levaquin* (see MDL 1943). Collectively, Mr. Watts’ firm has achieved verdicts more than \$1.6 billion (including four 9-figure verdicts and 23 verdicts of \$10 million or more), and total recoveries for its clients exceeding \$4 billion.

Mr. Watts also has substantial experience in negotiation the settlement of complex mass torts. In 2019, retired bankruptcy judge Randall Newsome, the court-appointed mediator, in *In Re: PG&E Corp.*, Bankruptcy Case No. 19-30088 (arising from *In re: California North Bay Fires Cases* (JCCP 4955)), appointed Mr. Watts to the four-person Plaintiffs’ Negotiating Team that secured a \$13.5 billion settlement with PG&E for more 70,000 wildfire victims. In 2017, Judge John W. Lungstrum, D. Kansas, appointed Mr. Watts to the four-person Plaintiffs’ negotiating team in *In Re: Syngenta Corn*, that achieved a \$1.5 billion settlement for more than 200,000 farmers across the United States. In 2014, Judge David Herndon of the Southern District of Illinois appointed Mr. Watts to the Plaintiffs’ Negotiating Team in *In Re: Pradaxa*, where we achieved a \$650 million settlement before the first bellwether trial in just twenty months following the formation of MDL 2385. Recently, as a member of the PSC of the Texas state court MDL in the Opioids litigation, Mr. Watts worked as the liaison to the federal MDL Plaintiffs Executive Committee in *In re: National Prescription Opioid Litigation* (MDL 2804) to settle the litigation against opioids manufacturers such as Purdue Pharmaceuticals and Johnson & Johnson, and opioid distributors Amerisource Bergen, Cardinal Health and McKesson. federal MDL co-lead Joe Rice, and court-appointed special master Francis McGovern, to fashion nationwide settlement solutions in *In re: National Prescription Opioid Litigation* (MDL 2804). Most recently, Mr. Watts has worked to achieve global resolutions out of bankruptcy court regarding LTL Management LLC and Johnson & Johnson’s talc/ovarian cancer liabilities arising from J&J baby powder, and regarding Aearo Technologies LLC and 3M Company’s hearing loss/tinnitus liabilities from the CAEv2 Combat Arms earplugs.

A list of Mr. Watts’s career MDL appointments are included in his CV, which is included as Exhibit B.

2. Names and Contact Information of Mass Tort Judges & Settlement Masters

Hon. John R. Tunheim – *In Re: Levaquin Products Liability Litigation* (MDL No. 1943). Over three weeks, Mr. Watts tried to a plaintiffs’ verdict of actual and punitive damages the

first bellwether case in the country, *John Schedin v. Johnson & Johnson, et al.*, No. 08-5743, D. Minn., involving tendon ruptures caused by Levaquin. Judge Tunheim may be reached via email at tunheim_chambers@mnd.uscourts.gov; (612) 664-5080.

Hon. Randall Newsome – *In Re: PG&E Corp.*, Bankruptcy Case No. 19-30088 (arising from *In re: California North Bay Fires Cases* (JCCP 4955)). Judge Newsome appointed Mr. Watts to lead settlement negotiations on behalf of the Plaintiffs, which led to the bankruptcy plan of reorganization yielding \$13.5 billion for plaintiffs. Judge Newsome may be reached via email at ranjack58@comcast.net; (415) 982-5267.

Randi Ellis – Ms. Ellis has worked with Mr. Watts on the settlement of multiple mass torts, including *In re: Pradaxa (Dabigatran Etexilate) Products Liability Litigation* (MDL 2385), *In re: Texas Opioid Litigation* (Texas MDL No. 18-0358), and is presently working with Mr. Watts in efforts to settle talc, ovarian cancer cases, LTL Management LLC, 21-30589 (MBK), *In the United States Bankruptcy Court for the District of New Jersey*, and 3M CAEv2 Combat arms hearing loss and tinnitus cases, *In re: Aearo Technologies LLC*, Case No. 22-02890-JJG-11, *In the United States Bankruptcy Court for the Southern District of Indiana*. Ms. Ellis may be reached via email at randi@randiellis.com; (225) 803-1413.

3. Willingness and ability to immediately commit to time-consuming litigation:

WG now employs 146 staff, including 50 attorneys, who handle complex commercial, product liability and injury litigation. WG has offices in California, Oregon, New Mexico, Texas, Ohio and Puerto Rico. This train derailment litigation is our highest priority, and if appointed as a member of the PEC, I am ready, willing, and able to commit all our firm's time, money and effort required to timely fulfill my obligations in connection with my appointment. Mr. Watts is familiar with the demands of such cases and can represent to the Court that she is fully able to take on whatever level of responsibility this Court deems appropriate.

4. Willingness and ability to work cooperatively with other plaintiffs' counsel and defense counsel:

In his role as co-lead counsel, lead trial counsel and settlement liaison in past and present MDLs, Mr. Watts has had the opportunity to work with a host of conflicting and competing groups. In this case, for example, Mr. Watts has attended an in-person meeting concerning organizing this tort in Cleveland, and numerous ZOOM meetings on the science and liability behind this case. Mr. Watts has worked with the proposed co-lead counsel and other law firms to formulate a large slate for your Honor's consideration.

In addition to his work as lead trial counsel in complex-commercial and personal-injury litigation, Mr. Watts has taken a central role in resolving various complex, national multi-district litigations ("MDLs"). For example, this month, Mr. Watts worked with other Plaintiffs' counsel and settlement counsel for the defense to attempt to fashion global resolutions of the talc ovarian cancer litigation against LTL and Johnson & Johnson and the CAEv2 Combat Arms earplug litigation against Aearo Technologies and 3M Company. Recently, in *In re National Prescription Opiate Litig* (MDL 2804), Mr. Watts

served as a liaison between hundreds of sovereign state litigants, state attorneys general, members of MDL plaintiffs' leadership, and various defendants to settle thus more than \$40 billion in claims, thus reducing the scope of the *Opioids* MDL, and putting this complex case on a path to a global resolution. Similarly, in *In re: PG&E Corp.* (No. 19-30088-DM), in which he represented more than 16,000 victims of California wildfires sparked by PG&E equipment, Mr. Watts served as the liaison between PG&E stakeholders (e.g., equity, secured lenders, and unsecured lenders, and other participants in the PG&E bankruptcy) to structure and to win support their plan that enabled PG&E to emerge from bankruptcy as a going concern, and to transfer to the resulting Fire Victims Trust approximately \$13.5 billion in settlement proceeds. At present, WG is resolving more than 16,000 claims in connection with that Trust, resulting in more than ¼ of its payments being made to our firm's survivors of PGE-caused 2017 and 2018 fires settled in bankruptcy court in calendar year 2020. In each case, Mr. Watts details each constituency's priorities and work towards consensus, issue by issue, and believes that working cooperatively with others is a harbinger of an efficient resolution of complex mass tort cases.

Mr. Watts' ability to work cooperatively with others is also reflected in his active involvement in professional legal organizations meant to facilitate the same. Mr. Watts is a longtime member of the Executive Committee and Board of Directors of Texas Trial Lawyers Association ("TTLA") and once served in the same capacities for the Attorneys Information Exchange Group ("AIEG"). Mr. Watts is a member of the Inner Circle of Advocates, comprised of 100 trial attorneys who meet frequently to exchange information to improve their skills and courtroom work product.

Finally, Mr. Watts is an AV Rated Lawyer by Martindale-Hubbell, and is board certified in Personal Injury Trial Law by the Texas Board of Legal Specialization. Mr. Watts has given hundreds of CLE presentations and have co-authored a book published by the American Bar Association, entitled "TRIAL – A Guide from Start to Finish – Perspectives from Opposing Counsel."

5. Access to resources available to prosecute this litigation in a timely manner:

Mr. Watts is responsible for prioritizing the work of my WG. WG consistently commits extraordinary economic and human resources to represent its clients, winning for them billions of dollars in gross settlements. WG has capital facilities providing our firm with available investment dollars in the nine-figures. WG will commit all resources required to prosecute and resolve this litigation in the manner it deserves.

6. Willingness to serve as lead counsel, a member of a steering committee, or both:
While Mr. Watts is willing to serve in whatever capacity the Court thinks is appropriate, he believes that the most appropriate role for her in this litigation is as a member of the Plaintiffs' Executive Committee.

7. Other Considerations: Concerning diversity, Watts Guerra reflects diversity in gender, ethnicity and age.

Concerning gender, Watts Guerra, has 50 attorneys, 25 of whom are women. Partner Alicia O'Neill is the managing partner of the law firm's mass tort section, and she is and will remain heavily involved in this litigation, working with Mr. Watts' daughter Hailey Watts who will do the same. The law firm's Puerto Rico mass tort office employs eight women attorneys who will work on this litigation. For more details in connection with the law firm, see <https://www.wattsguerrallc.com/>.

Concerning ethnicity, Watts Guerra founding partners Mikal Watts Francisco Guerra IV each present diversity as Mr. Watts presents maternal Puerto Rican heritage and Mr. Guerra presents maternal and paternal Mexican American heritage. Further, the law firm has eight attorneys in Puerto Rico who will work on this litigation, including Astrid Reyes Baez, Paola Gonzalez, Natalia Barquet Hornback, Jeasette Berrios-Martinez, Natalia and Veronika Banuchi Ponce, Adriana Cordero Suau, Cristina Quiles Torres, and Jennifer Miranda Torres.

Concerning age, Hailey Watts, age 26, daughter of Mr. Watts, joined the law firm in March 2023, and she will be assigned to this litigation. Further, the law firm has assigned eight additional attorneys under 40 to this litigation: Ms. Baez, age 26; Ms. Gonzalez, age 26; Ms. Hornback, age 36; Ms. Berrios-Martinez, age 32; Ms. Ponce, age 27; Ms. Suau, age 27; Ms. Torres, age 30; and, Ms. Torre, age 31.

Finally, Mr. Watts' application to serve as a member of the Plaintiffs' Executive Committee is supported by the plaintiffs' counsel listed on the attached Exhibit A, and Mr. Watts likewise supports the application of those attorneys for the appointments listed there. Mr. Watts knows those lawyers and law firms well, has worked with many of them in prior MDLs, and can assure the Court that this MDL would be well-served by those appointments.

Respectfully submitted,

Mikal C. Watts

Pursuant to this Court's order dated March 8, 2023, please consider this letter application for a leadership position in this consolidated action. As detailed below, Mr. Schaffer is qualified, experienced, and committed to vigorously litigating this action on behalf of the plaintiffs and class.

I. Charles E. Schaffer's Professional Experience in MDLs and Complex Litigation:

With over 25 years of experience, Mr. Schaffer is a nationally recognized leader in complex litigation, having been appointed as Lead or Co-Lead Counsel or as a PSC member on a regular basis by federal courts across the country.¹ He is widely recognized for his ability to lead very

(816-512-5000).

III. Charles E. Schaffer's Willingness and Ability to Immediately Commit to Time-Consuming Litigation:

As illustrated by his track record, Mr. Schaffer has repeatedly demonstrated his ability to commit to prosecuting cases through certification, trial, and even post-trial appeals when necessary. He has demonstrated his willingness and ability to commit to time-consuming multidistrict litigations and complex litigations as evidenced by his dedication to the multidistrict litigation process over the past decade and the progressively increasing responsibilities he has accepted in each litigation. Mr. Schaffer and his firm have devoted significant resources (both financial and staff) to prosecute multiple MDLs, including being involved in multiple MDLs simultaneously. Mr. Schaffer is familiar with the demands of such complex cases, is prepared to dedicate the necessary resources and staff to efficiently prosecute this action, and can represent to the Court that he is fully able to take on whatever level of responsibility this Court deems appropriate.

IV. Charles E. Schaffer's Willingness and Ability to Work Cooperatively with Other Plaintiffs' Counsel and Defense Counsel:

Mr. Schaffer has excellent working relationships with the lawyers and their firms seeking Lead Counsel and Executive Committee positions (as well as many of the firms that submitted applications for steering committee positions). In addition, his firm has an excellent working relationship with Norfolk Southern's counsel which spans a decade. Mr. Schaffer and his firm pride themselves on forming productive and collegial relationships with co-counsel and defense counsel because he believes that such cooperative working relationships are necessary for effective representation. Collaboration with all counsel and avoiding unnecessary and petty disputes with defense counsel are vital to zealously and efficiently prosecuting a complex action on behalf of a class of injured victims. His frequent appointments to MDL leadership positions are evidence of his reputation among the plaintiffs bar, and the plaintiffs MDL bar in particular. He and the members of his firm are well-known and well-respected within both the plaintiffs' and defense MDL bar.

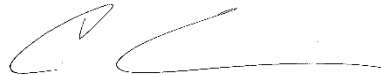

V. Access to Resources Available to Prosecute this Litigation in a Timely Manner:

Levin Sedran possesses both the financial and human resources necessary to successfully prosecute large complex cases to trial and is willing to devote those resources to prosecute this action. The firm is comprised of attorneys who are versed in all stages of litigation against large, heavily funded defense firms. Having practiced exclusively in complex and class action litigation since its inception over three decades ago, the firm handles cases only on a contingent-fee basis and focuses its practice on environmental exposures, consumer protection, products liability, antitrust, and other complex class action litigation. Levin Sedran's stock and trade is the litigation of technically complex matters and cases such as this one. Levin Sedran recognizes the commitment of financial resources this litigation will entail. We do not use third-party financing and routinely advance substantial sums on behalf of our clients in complex cases, recovery of which is contingent upon the successful prosecution of case, and are prepared to do so here.

VI. Other Considerations:

Mr. Schaffer and his firm also have extensive experience representing injured railroad workers against railroad companies, especially Norfolk Southern, for injuries including cancer as a result of exposure to toxins and other hazardous chemicals in the workplace under the Federal Employers' Liability Act. Along with his class action and mass tort experience, Mr. Schaffer has an LLM in Trial Advocacy and has extensive experience prosecuting complex individual actions on behalf of injured individuals in products liability, medical negligence, and drug and medical device actions. He has served as Lead Counsel in these matters and successfully tried cases to jury verdicts. Undoubtedly, Lead Counsel and fellow members of the PSC will benefit from his insight and experience in prosecuting and trying those actions to jury verdicts. Furthermore, Mr. Schaffer and other members of his firm have a strong working relationship with several of the other firms applying for leadership positions in this case and pride themselves on bringing both a cooperative spirit and fresh perspective to multidistrict litigation and can assure the Court that this MDL would be well-served by those appointments.

Very truly yours,

Honorable Benita Y. Pearson
United States District Court
Northern District of Ohio

Re: Feezle at al., etc. v. Norfolk Southern Railway Co. et al., No. 4:23CV0242

Dear Judge Pearson:

Pursuant to the Court's Order dated March 8, 2023 (ECF No. 36), please accept this letter application of James Bilsborrow of the law firm Weitz & Luxenberg, PC ("Weitz"), for a position on the Plaintiffs' Executive Committee in the above-captioned cases. I am counsel in the related matter *Barnhouse v. Norfolk Southern Corp. et al.*, No. 4:23-cv-00510, and, along with my co-counsel at Elk & Elk, have been working cooperatively with proposed Co-Lead Counsel Ms. Conroy, Ms. Graham, Mr. Katz, and Mr. Morgan for the past several weeks as the environmental disaster in East Palestine has unfolded. For the reasons set forth below, I believe I am well-qualified to serve the Court in this difficult and complex matter. In addition, my firm, which specializes in environmental and toxic tort litigation, is prepared to contribute valuable resources and experience to assist the East Palestine community in its pursuit of justice.

I am a Partner at Weitz and Co-Chair of the firm's Environmental, Toxic Tort, and Consumer Protection department. Since the beginning of my career, I have devoted my practice to assisting victims injured by toxic substances from environmental contamination. Further, over the past fifteen years, Weitz's Environmental Tort department has been appointed by courts to litigate some of the nation's largest environmental disaster cases, including those arising out of the BP oil spill, Aliso Canyon methane gas explosion, and the 2008 spill of over one billion gallons of coal ash across properties in the Tennessee Valley. Those catastrophic incidents, like the one in East Palestine, involved communities exposed to dangerous chemicals, many of whom were forced to evacuate their homes, only to return to contaminated properties of lesser value, and who suffered from severe acute physical conditions as well as long-term latent injuries. My colleagues and I have also successfully litigated toxic exposure claims on behalf of communities faced with historical pollution, obtaining certified medical monitoring classes for individuals exposed to toxic per- and polyfluoroalkyl substances (PFAS) and leading multidistrict litigation on behalf of cancer victims exposed to Monsanto's Roundup herbicide products. I have served either a leading or supporting role in each of these cases and, as such, I have experience litigating the types of claims asserted in the above-captioned cases, knowledge of the applicable law, and the resources necessary to represent the East Palestine community. *See* Fed. R. Civ. P. 23(g) (setting forth requirements for

appointment of class counsel). Moreover, in many of these matters, my firm has worked cooperatively with several of the law firms closely involved in this case, including proposed Co-Lead Counsel. Accordingly, I am well-suited to provide integral support to the collective litigation effort required in this matter.

Professional Experience in Complex Environmental and Toxic Tort Matters: I have extensive experience in both state and federal court representing individuals and communities exposed to toxic contaminants and dangerous pollution. *See* Exhibit A (Bilsborrow Resume), attached hereto. In *Baker v. Saint-Gobain Performance Plastics Corp.*, No. 1:16-cv-917 (N.D.N.Y.), before the Honorable Lawrence E. Kahn, I was appointed co-lead class counsel to represent a class of current and former residents of Hoosick Falls, a village in upstate New York whose drinking water was contaminated with perfluorooctanoic acid (PFOA), a known “likely carcinogen.” I have taken the lead in all facets of the litigation since its commencement in 2016, shepherding named plaintiffs through discovery, spearheading document and deposition discovery, working with and defending plaintiffs’ experts, and briefing numerous motions, including a successful appeal to the Second Circuit. *See Baker v. Saint-Gobain Performance Plastics Corp.*, 959 F.3d 70 (2d Cir. 2020). In February 2022, the court approved a partial settlement with three of four defendants worth \$65.25 million, which provided payments for diminution in property value and nuisance, and funded a ten-year medical monitoring program. *See Baker v. Saint-Gobain Performance Plastics Corp.*, 2022 WL 1025185 (N.D.N.Y. Feb. 4, 2022). In September 2022, the court certified medical monitoring and property damage classes against the remaining defendant, DuPont. *See Baker v. Saint-Gobain Performance Plastics Corp.*, --- F. Supp. 3d ---, 2022 WL 9515003 (N.D.N.Y. 2022). The litigation against DuPont is ongoing.

I am currently a member of the Plaintiffs’ Executive Committee in *In re Dicamba Herbicides Litig.*, MDL No. 2820, No. 1:18-md-02820-SNLJ (E.D. Mo.), before the Honorable Stephen N. Limbaugh, Jr. In this multidistrict litigation, plaintiffs are farmers in the Midwest and Southern United States whose crops were damaged by vapor drift caused by the defendants’ dicamba-based herbicide products. As a member of the Executive Committee, I was closely involved in developing the plaintiffs’ liability narrative through company deposition discovery, Rule 30(b)(6) depositions, negotiation of electronic discovery protocols, and third-party discovery. I also served as a member of the plaintiffs’ settlement team that ultimately negotiated a \$400 million settlement on behalf of farmers nationwide. The *Dicamba* MDL has largely concluded, though settlement administration is ongoing.

In 2018, I was appointed co-lead class counsel in *Burdick v. Tonoga, Inc. (d/b/a Taconic)*, No. 00253835 (N.Y. Rensselaer Cnty.), before Justice Patrick McGrath. In *Burdick*, I represented a class of current and former residents of Petersburg, New York, whose drinking water and properties were contaminated with toxic PFAS chemicals. I led all phases of this litigation, from the initial pleadings through summary judgment and pretrial proceedings. After the trial court granted class certification, I successfully defended the class on appeal, obtaining a unanimous decision by the New York State Appellate Division. *See Burdick v. Tonoga, Inc.*, 179 A.D.3d 53 (N.Y. App. Div. 2019). The Appellate Division’s decision was the first in state history upholding certification of a medical monitoring class. In March 2022, the court granted final approval to a \$23.5 million class settlement that provided diminution in property value and nuisance payments to property owners and renters, and established a fifteen-year medical monitoring program for affected class members.

In addition to the matters set forth above, I have served as a member of the firm's litigation team that has successfully prosecuted some of the nation's largest environmental cases of the past fifteen years. To highlight but a few examples:

- *In re Roundup Prods. Liab. Litig.*, MDL No. 2741, No. 16-md-02741-VC (N.D. Cal.): Robin Greenwald, who is Weitz co-counsel in this matter, was appointed co-lead counsel in multidistrict litigation against Monsanto Co. for personal injury claims brought on behalf of individuals diagnosed with non-Hodgkin's lymphoma as a result of their exposure to Roundup herbicide products. Plaintiffs obtained an \$80 million verdict in the first bellwether case, a result that was unanimously affirmed by the Ninth Circuit. *See Hardeman v. Monsanto Co.*, 997 F.3d 941 (9th Cir. 2021). In June 2020, these efforts resulted in settlements valued at over \$10 billion.
- *Southern California Gas Leak Cases*, JCCP 4861 (Super. Ct. Los Angeles Cnty.): Weitz is co-lead court-appointed counsel in consolidated proceeding involving personal injury, property damage, and nuisance claims arising out of the four-month-long Aliso Canyon natural gas leak in Porter Ranch, California, which was caused by the Southern California Gas Company. Following the leak, residents were forced to evacuate their homes and some could not return for months. In 2022, the matter resolved for \$1.8 billion on behalf of approximately 36,000 plaintiffs.
- *In re Oil Spill by the Oil Rig "Deepwater Horizon" in the Gulf of Mexico, on Apr. 20, 2010*, No. 10-md-2179 (E.D. La.): Weitz was appointed to the Plaintiffs' Steering Committee to litigate personal injury, property damage, and economic loss claims arising out of the 2010 BP oil spill, the largest marine oil spill in the history of the petroleum industry. The case ultimately settled on a class-wide basis with an uncapped fund worth in excess of \$20 billion. *See In re Deepwater Horizon*, 739 F.3d 790 (5th Cir. 2014).
- *In re Auchard et al. v. Tennessee Valley Auth.*, No. 3:09-cv-54 (W.D. Tenn.): After a failure at a waste impoundment fossil fuel plant caused the release of over one billion gallons of coal ash sludge across more than 300 acres of properties in Kingston, Tennessee, Weitz represented individuals to recover damages to property and for personal injuries in a settlement worth \$28 million.

Willingness and ability to commit to time-consuming litigation: I am willing and able immediately to commit to this time-consuming litigation. Indeed, for the past several weeks, I have devoted considerable time to this matter, interviewing potential clients, researching potential claims and defenses, conferring with plaintiffs' counsel on strategy, and consulting with potential expert witnesses. I have also enlisted the support of multiple attorneys in my department, including my co-counsel, Ms. Greenwald, with whom I will litigate this matter.

Willingness and ability to work cooperatively with other plaintiffs' counsel and defense counsel: In several of the matters referenced above, as well as other complex, multidistrict and class action litigations, Weitz has worked cooperatively with many of the law firms seeking appointments in this case, including Co-Lead Counsel. In addition, I have a track record of working professionally with opposing counsel in an effort to advance litigation while minimizing disputes. In this matter, for example, I have engaged in productive conferrals with Norfolk Southern's counsel regarding inspection of the train car and derailment site. I have no doubt we will work cooperatively as this litigation continues.

Access to resources available to timely prosecute this litigation: Weitz is committed to timely prosecuting this litigation and has access to sufficient resources to ensure the matter is well-funded and well-staffed. Weitz is a large law firm, with approximately 100 attorneys and 250 support staff, several of whom will be dedicated to this case. We have the resources not only to litigate the case, but also to ensure our clients are receiving the counsel that they require in this time of uncertainty. Weitz has been part of numerous large and complex lawsuits since it was founded 35 years ago and has the human and financial resources to meet the challenges presented by this case. If the demands require it, the firm will not hesitate to shift resources or hire additional staff to meet the needs of discovery, to prepare for trial, or bring the case to a successful resolution.

Re: HAROLD R. FREEZLE, ET AL., ETC. V. NORFOLK SOUTHERN RAILWAY CO.,
ET AL. *Case No. 4:23-cv-0242*

Dear Hon. Judge Pearson:

Pursuant to this Court's order dated March 8, 2023, please accept this letter application of Michelle L. Kranz of the Toledo, Ohio firm of Zoll & Kranz, LLC ("ZK"), for a leadership position as Plaintiffs' Liaison Counsel/Plaintiffs' Executive Committee in this litigation against Norfolk Southern Railway Co. Ms. Kranz brings the unique perspective and skill set of an Ohio attorney that has focused her practice on leading mass tort and consolidated actions. Ms. Kranz has personally worked with Jayne Conroy, Seth Katz, and Elizabeth Graham over the last ten years in numerous litigations and fully supports their appointment as Co-Leads.

As detailed below, Ms. Kranz is exceptionally qualified to serve this Court in light of her significant experience in numerous other consolidated actions and her continued appointment by federal courts to leadership roles in those cases. In addition, Ms. Kranz demonstrates her leadership abilities and commitment to Ohio in her current role as President-Elect of the Ohio State Bar Association. In addition, ZK can and will bring the necessary resources to a case that will likely be both complicated and expensive to litigate.

1. Relevant Professional Experience:

Ms. Kranz has dedicated her entire thirty years in practice to representing Plaintiffs in complex litigation at both the trial and appellate level. Ms. Kranz's experience with consolidated litigation began with *In Re: Sulzer Hip Prosthesis and Knee Prosthesis*, MDL 1401, when her partner David W. Zoll was assigned a leadership role by the Hon. Kathleen M. O'Malley. Over the last two decades, Ms. Kranz's practice has grown to become almost exclusively consolidated action litigation on both a federal and state level, including product liability, pharmaceutical, and anti-trust cases. Through this work, she has gained critical and valuable experience while serving in leadership roles described, in part, below. A full list of Ms. Kranz's court appointed leadership roles in various consolidated actions is set out in her curriculum vitae, attached as Exhibit A.

Ms. Kranz's most pertinent experience is as Liaison Counsel for *DePuy Orthopaedics, Inc., ASR Hip Implant Products Liability Litigation* (MDL 2197). Appointed by the late Hon. David A. Katz, U.S. District Court, Northern District of Ohio, and continuing in that role under the Hon. Jeffrey J. Helmick. Ms. Kranz has had a very active Liaison role and been intimately involved with every aspect of that litigation.

Ms. Kranz's principle duties include maintaining regular communication with the Court and the over 900 hundred law firms (with over 11,000 member cases), developing and maintaining a Plaintiffs-only website that has become a model for attorney information and communication in an MDL, handling all the assessments and finances of the PEC and PSC, coordinating filing of MDL pleadings and discovery, maintaining common benefit time and expenses, and promptly communicating case and settlement developments. The Co-Leads and PEC in that case significantly expanded Ms. Kranz's role as Liaison Counsel and she was tasked with many additional leadership and litigation duties. Those additional responsibilities included federal and state coordination of depositions, taking key depositions, and bellwether selection, as well as being a member of the MDL trial team. Ms. Kranz oversaw the pre-trial briefing and was responsible for a variety of the oral arguments on Motions in Limine before Judge Katz. Most importantly, Ms. Kranz participated in all aspects of the settlement strategy and negotiations, resulting in the resolution of the first 8,000 cases for \$2.5 Billion dollars, and two subsequent global settlements in 2015 and 2017. In furtherance of those settlement efforts, Ms. Kranz was appointed to the Settlement Oversight Committee who has been responsible for the administration of the three global settlements. Ms. Kranz was also appointed to the Fee Committee. Ms. Kranz has a thorough understanding of the responsibilities of a Plaintiffs' Liaison Counsel in the Northern District of Ohio and the resources necessary to successfully fulfill those duties.

Ms. Kranz's most recent mass tort experience is in the *Gilead Tenofovir Cases and Consolidated Action*, California JCCP 5043. While initially appointed to the Plaintiffs' Steering Committee in 2020, Ms. Kranz was subsequently appointed to the Executive Committee in 2022.

In 2018, Ms. Kranz was one of five appointments by the Hon. James G. Carr of the Northern District of Ohio to sit on a commission to determine the compensation owed to certain landowners in a Federal Energy Regulatory Commission-related action arising from a natural gas pipeline (Case No. 3:17-cv-00225). The commission was led by Special Master David. R. Cohen.

Ms. Kranz was appointed to the Plaintiffs' Executive Committee by the Hon. Matthew F. Kennelly for *In Re: Testosterone Replacement Therapy Products Liability Litigation* (MDL No. 2545), Northern District of Illinois, a complex, multi-defendant MDL in 2014. Ms. Kranz not only participated in overall case management and strategy but was responsible and oversaw all aspects of case progress and development related to one of Defendants. Additionally, Ms. Kranz participated on trial teams for two bellwether trials against two other Defendants. In November 2018, Ms. Kranz was also appointed to the five-member Common Benefit Fee Committee.

Ms. Kranz was appointed to the Plaintiffs' Steering Committee in 2013 by the Hon. Matthew F. Kennelly of the Northern District of Illinois in the *In Re: Text Messaging Antitrust Litigation* (MDL 1997), and in 2012, by the Hon. Robert L. Miller, Jr., of the U.S. District of Indiana, for *In Re Biomet M2A Magnum Hip Implant Products Liability Litigation* (MDL 2391). In addition, Ms. Kranz also lent her experience in the area of Liaison Counsel to the appointed Liaison Counsel in the Biomet M2A Magnum MDL.

In addition to Ms. Kranz's leadership roles in litigation, she has extensive experience in a variety of leadership roles arising from her commitment to her profession and legal community that has fostered her ability to work effectively and cooperatively with others. Ms. Kranz is a proud member of the Ohio Bar and has always willingly served various local bar associations as well as the Ohio State Bar Association. On July 1, she will assume the duties of Ohio State Bar Association President. Ms. Kranz is currently the President-Elect for the Ohio State Bar Association, as well as serving on the Board of Governors for the Ohio State Bar Association, a Trustee for the Toledo Bar Association Foundation, and a Trustee for the National Civil Justice Institute. Ms. Kranz's other non-litigation leadership roles are detailed further in the attached curriculum vitae, Exhibit A.

2. Willingness and ability to immediately commit to time-consuming litigation: Ms. Kranz's commitment to Plaintiffs' and the Courts in complex, time-consuming consolidated litigations has been shown by the increasing number and significance of the roles she has been appointed to in multi-district

litigations over the last decade. Ms. Kranz is well-versed with the demands a litigation such as this places not only on her, but on her firm and its resources, and has more than fulfilled all her responsibilities and duties in each of the consolidated actions in which she accepted a leadership position. Ms. Kranz is prepared and capable of taking on whatever level of position this Court deems appropriate.

3. Willingness and ability to work cooperatively with other plaintiffs' counsel and defense counsel: Ms. Kranz's appointments to MDL leadership positions and those in the local, state, and national bar associations reflect her reputation professionally, particularly with the plaintiffs' bar. Ms. Kranz's experiences in both litigation and professional associations has deepened her commitment to cooperation, civility, organization, and communication in the litigation process. Ms. Kranz enjoys and values the challenges mass tort litigation offers and has developed an even greater appreciation for the importance of good will, hard work, reliability, and perseverance. Ms. Kranz endeavors to balance her zealous advocacy for her clients and the high level of professionalism and civility required of all attorneys, and, most particularly, of those selected for leadership roles in a consolidated litigation.

4. Access to resources available to prosecute this litigation in a timely manner: For more than thirty years, ZK has always been primarily a plaintiff practice, handling cases on a contingency fee basis and been focused on multi-district litigation for almost twenty years. As a smaller law office, the significant commitment of its resources in mass tort litigation is something ZK undertakes following a thorough analysis. ZK has done so here, as it has successfully for the last two decades, and has access to the necessary resources to assist in the prosecution of this litigation.

5. Willingness to serve as liaison counsel and as a member of the executive committee: While Ms. Kranz is willing to serve in whatever capacity the Court thinks is appropriate, she believes that the most appropriate role for her in this litigation is as Plaintiffs' Liaison Counsel and a member of the Plaintiffs' Executive Committee. Ms. Kranz is confident she possesses the requisite experience and knowledge to effectively fulfill the duties of Plaintiffs' Liaison Counsel.

Respectfully submitted,

Michelle L. Kranz

Noteworthy Cases:

Attorneys with **Herzfeld, Suetholz, Gastel, Leniski and Wall PLLC** have served either as lead counsel or as an plaintiffs' executive committee member in a substantial number of precedent setting labor, class actions, shareholder derivative, securities, and other complex cases both in state and federal courts throughout the nation. The firm's efforts have produced significant monetary recovery and/or benefits for plaintiffs from many jurisdictions. While the firm has also defended numerous such actions, the following is a list of notable complex litigation cases that the firm is currently prosecuting, or has prosecuted to a successful conclusion:

MASS TORT

- Staubus et al., v. Endo Pharmaceuticals, Inc., et al., C-41916 (Circuit Court for Sullivan County at Kingsport, Tennessee) (J. Moody). Involved claims on behalf of twenty-seven cities and counties and one child born drug-dependent in upper Northeast Tennessee against numerous prescription drug manufacturers and doctors under the Tennessee Drug Dealer Liability Act due to their participating in an illegal drug market for opioids. Two defendants, Purdue Pharma and Mallinckrodt, declared bankruptcy in during the litigation. Plaintiffs reached a settlement with doctor defendants, and the remaining manufacturing defendants, Endo Pharmaceuticals, Inc., and Endo Health Solutions, Inc., settled the plaintiffs' claims on the eve of trial for \$35 million, representing the largest single recovery against these manufacturer defendants in any opioid-related litigation in the country to that point.
- In re: New England Compounding Pharmacy Product Liability Action, 1:13-md-02419 (D. Mass) (J. Zobel). As members of the Plaintiffs' Steering Committee and lead Tennessee Plaintiffs' Counsel, the Firm's attorneys represented hundreds of individuals injured as a result of exposure to tainted pharmaceuticals manufactured at New England Compounding Pharmacy in Framingham, Massachusetts. This litigation stems from the 2012 nationwide outbreak of fungal meningitis that, according to the Center for Disease Control, injured over 750 people nationwide and led to over 60 deaths. Over 100 Tennesseans were injured as a result of the catastrophe and 17 Tennesseans lost their lives. Following NECC's bankruptcy, settlement of claims against the bankrupt estate resulted in the creation of a \$210 million tort trust. The litigation then turned to litigating the remaining claims against the doctors, clinics, and other healthcare providers that exposed their patients to tainted pharmaceuticals from NECC. The Court determined the first bellwether trials were to be against Tennessee-based defendants. All of the Tennessee cases were settled just prior to the first bellwether trial.

CLASS ACTIONS

Attorneys served on the Plaintiffs’ Steering Committee in a coordinated action consisting of nationwide-cases of consumer and car dealerships alleging that Volkswagen AG and Volkswagen Group of America, and other defendants illegally installed so-called “defeat devices” in their vehicles which allowed the cars to pass emissions testing but enabled them to emit nearly forty-times the allowable pollution during normal driving conditions. In October 2016, the court granted final approval to a settlement fund worth over \$10 billion to consumers with 2.0 liter diesel engines, and in May 2017, the court granted final approval to a \$1.2 billion settlement for consumers with 3.0 liter diesel engines, and a \$357 million settlement with co-defendant Bosch.

After winning at the Sixth Circuit Court of Appeals and losing before the *en banc* Sixth Circuit Court of Appeals the Supreme Court of the United States accepted and resolved the question in favor of the Plaintiff Eric Thompson. Trial Counsel, *Coyne v. Tri-State* (Ohio Cty., W.Va.) – Kelly served as defense counsel for a corporation and its shareholders in a three-week long shareholder dispute jury trial. Kelly was instrumental in all aspects of the litigation, including discovery, working with expert witnesses, taking and defending depositions of expert witnesses, preparing and arguing dispositive motions to the court, trial preparation, and ultimately at trial. While the jury returned a verdict for Plaintiff, it was for a markedly reduced amount, and the clients were pleased with the result.

OUR MISSION

Lynch Carpenter is a national law firm with a singular mission – to provide a voice to those who have been silenced by the disproportionate powers which too often exist in America. With lawyers based in Pittsburgh, San Diego, Los Angeles, Philadelphia, and Chicago, Lynch Carpenter has created an inclusive national community of like-minded legal talent to represent plaintiffs in complex litigation. Lynch Carpenter lawyers have developed strong collaborative working relationships with counsel throughout the nation and have been involved in numerous high-profile multidistrict litigation proceedings, frequently in leadership roles.

The Lynch Carpenter platform is self-made, without reliance upon the legacy of a long-established “repeat player” law firm, and is based upon the fundamental principle that input from a broad base of lawyers with diverse backgrounds, working together with mutual respect, will result in the strongest possible organization. At Lynch Carpenter, diversity is utilized, not tokenized. To this end, the firm strives to provide equal opportunities for promotion and leadership to its attorneys and supporting professionals. Fourteen of the 23 Lynch Carpenter attorneys have been appointed to leadership positions in multidistrict or otherwise consolidated litigation, or in class-action matters involving financial fraud (including securities fraud, derivative actions, and lending fraud), data breach, privacy, consumer fraud, breach of contract, labor and employment, antitrust, and civil rights, in federal and state courts throughout the country.

Lynch Carpenter represents a wide variety of clients, including individual consumers and employees, small businesses, non-profits, issue advocacy groups, and governmental entities. Over the past ten years, Lynch Carpenter lawyers emerged as national leaders in data breach and privacy litigation, and in that time have negotiated or contributed to class recoveries totaling more than \$250 million in that sector alone. Along the way, the Lynch Carpenter team has generated seminal legal authority in both trial and appellate courts. For example, in 2018, as a direct result of Lynch Carpenter’s tenacious appellate advocacy, the Pennsylvania Supreme Court became one of the first state high courts to recognize that a common-law duty of reasonable care applies to the collection and storage of sensitive electronically-stored data. This landmark opinion, *Dittman v. UPMC*, 196 A.3d 1036 (Pa. 2018), paved the way for data breach victims to bring viable negligence claims against companies whose inadequate security practices allow major breach incidents to happen.

In October 2020, *The Legal Intelligencer* named Lynch Carpenter (under its predecessor name) “Litigation Department of the Year” for general litigation in Pennsylvania. In 2021, the firm was named as a finalist for Litigation Department of the Year in the Pennsylvania region by *The American Lawyer*. Several of its partners co-author the current edition of *Class Actions: The Law of 50 States* published by Law Journal Press. Lynch Carpenter’s attorneys are recipients of numerous additional individual awards, as described in more detail in the individual biographies on the firm’s website.

Lynch Carpenter continues to grow and establish itself as a leader in representing plaintiffs in complex litigation throughout the country. The firm remains committed to developing its younger lawyers and providing them with opportunities for professional growth, both inside and outside of the firm. In leading major complex litigation, the firm draws strength from its decentralized management structure, which fosters collaboration within the firm and enables the assembly of internal litigation teams for each case. In this way, Lynch Carpenter epitomizes the synergistic benefits which result from a group of good lawyers working together to do good things.

REPRESENTATIVE AND NOTABLE CASES

PRIVACY & DATA BREACH LITIGATION

In re TikTok, Inc., Consumer Privacy Litig., No. 20-cv-4699 (MDL No. 2948) (N.D. Ill.). Judge Lee appointed Katrina Carroll as Co-lead Counsel in this multidistrict litigation alleging that one of the world's biggest social media platforms captured, collected, and transmitted personal data from TikTok users and their devices without their consent and/or knowledge, including private information and biometric information within the meaning of the Illinois Biometric Information Privacy Act. In August 2022, a settlement for \$92 million received final approval.

In re Equifax, Inc. Customer Data Security Breach Litig., MDL 2800 (N.D. Ga.). The Equifax data breach compromised the nation's entire credit reporting system. More than 400 lawsuits filed by consumers and financial institutions were consolidated in the MDL. Gary Lynch was appointed co-lead counsel for financial institution plaintiffs. After significant dispositive motions practice and initial rounds of discovery, the parties negotiated a settlement of the financial institution class action that provides up to \$7.75 million in cash benefits, plus additional injunctive relief. The court granted preliminary approval of the settlement in June 2020 and final approval in October 2020.

In re Blackbaud, Inc. Customer Data Breach Litig., MDL 2972 (D.S.C.). In 2020, data security company Blackbaud, Inc. was target for a ransomware attack. In the litigation that followed, brought by Blackbaud's customers, Kelly Iverson was appointed to the Plaintiffs' Steering Committee. On October 19, 2021, the Honorable J. Michelle Childs denied Blackbaud's motion to dismiss Plaintiffs' negligence and gross negligence claims.

In re Wawa, Inc. Data Security Litig., 2:19-cv-6019 (E.D. Pa.). Gary Lynch was appointed co-lead counsel for a putative class of financial institution plaintiffs in consolidated actions brought against Wawa, Inc. arising out of a 2019 payment card data breach involving the convenience store's point-of-sale systems. A consolidated amended complaint was filed in July 2020, and in 2021 the district court denied the defendant's motion to dismiss the primary claims. In March 2023, the parties submitted for preliminary approval of a settlement that would provide up to \$37. million in relief for the class.

Popa v. Harriet Carter Gifts, Inc., 52 F.4th 121 (3d Cir. 2022). *Popa v. Harriet Carter Gifts, Inc.*, 52 F.4th 121 (3d Cir. 2022) - Lynch Carpenter won reversal of a district court's summary judgment for defendants in a case regarding applicability of Pennsylvania's Wiretapping and Electronic Surveillance Control Act ("WESCA"), 18 PA. CONS. STAT. 5702 *et seq.* The Third Circuit rejected the defendants' attempt to establish a "direct party" exception to WESCA, which would have undermined the two-party consent requirement of the statute. The Third Circuit also confirmed that defendants bear the burden of proving a prior consent defense, and that the location of electronic interception of website communications under WESCA is at the point where software re-routes transmissions from a user's device, not where the Website Communications are ultimately received. As of March 2023, the remanded case remains in litigation in the Western District of Pennsylvania.

In re Marriott International Customer Data Security Breach Litigation, MDL No. 2879 (D. MD.). Lynch Carpenter was appointed to the Plaintiffs' Steering Committee in this multidistrict litigation related to the data breach involving Starwood guest information dating back to at least 2014. The MDL includes more than 100 cases and is in pretrial litigation. The District Court certified several bellwether classes in May 2022.

Opris v. Sincera Reproductive Medicine, 2:21-cv-3072 (E.D. Pa.). Lynch Carpenter serves as co-lead counsel in this data breach case involving the 2020 compromise of patients' personal identifiable information and protected health information from a reproductive health services provider. In May 2022, Judge Slomsky denied the majority of the defendant's motion to dismiss. A class settlement received preliminary approval in March 2023.

In re Anthem, Inc. Customer Data Security Breach Litig., No. 5:15-md-02617, MDL 2617 (N.D. Cal.). Lynch Carpenter attorneys represented customers of a national health insurer which experienced a data breach involving the personal information, including social security numbers, of up to an estimated 80 million customers. The case was consolidated and transferred to the Northern District of California in June 2015. Lynch Carpenter attorneys participated in discovery related to Highmark, the Pennsylvania-based member of the Blue Cross Blue Shield Association and a co-defendant in the MDL. The parties reached a settlement valued at \$117 million, which was approved by the Court.

In re Home Depot Customer Data Breach Litig., 1:14-md-02583, MDL 2583 (N.D. Ga.). In this multidistrict litigation, Lynch Carpenter attorneys represented financial institutions in litigation related to the major data breach at the retailer which continued for almost six months in 2014 and resulted in the compromise of approximately 56 million payment card accounts. Lynch Carpenter was appointed by Judge Thrash to be one of three lead counsel managing the financial institution track of the litigation. In September 2017, the Court granted final approval to a comprehensive class settlement that provides over \$27 million in relief to the financial institution class.

First Choice Federal Credit Union v. The Wendy's Company et al, 2:16-cv-0506, (W.D. Pa.). This class action arose out of a malware installed on the point-of-sale systems of Wendy's franchised restaurants for the purpose of capturing and ex-filtrating customer payment card data. Approximately 18 million payment cards were exposed. The United States District Court for the Western District of Pennsylvania consolidated several proposed class actions and appointed Lynch Carpenter as Co-lead Counsel on behalf of the plaintiff financial institutions. In November 2018, after three rounds of in-person mediation, Wendy's agreed to pay \$50 million into a non-reversionary fund and to adopt and/or maintain certain reasonable safeguards to manage its data security risks. When the settlement received final approval in November 2019, the Honorable Maureen P. Kelly noted Class Counsel's "national reputation," "significant experience in these types of class actions and in data breach litigation," and "high level of skill and efficiency." Judge Kelly further explained:

This case has gone on for three and a half years...This was a very involved case and everyone brought to the table an incredible wealth of knowledge, was always prepared, really was thorough and professional in everything that was provided to the Court. And as involved as this case was, if every case I had was as well organized and professionally presented as this case has been, my life would be much easier... The briefs I got in this case and any filings were just so well-done and detailed. And my law clerks and I have discussed that a number of times. I want to thank counsel for the way you have conducted yourselves and the way you've all presented this case.

Dittman et al v. UPMC d/b/a The University of Pittsburgh Medical Center and UPMC McKeesport, Allegheny Cty., Pa. No. GD-14-003285; 196 A.3d 1036 (Pa. 2018). Lynch Carpenter represented several employees of the health care group UPMC in a class action stemming from a breach of UPMC's personnel files. On November 21, 2018, the Supreme Court of Pennsylvania issued a

landmark decision, reversing two lower courts, regarding the viability of common law negligence claims in the wake of a data breach. The Court found that UPMC engaged in affirmative conduct by collecting and storing employee data, and that general principles of negligence support holding actors to “a duty to others to exercise the care of a reasonable man to protect [others] against an unreasonable risk of harm to them arising out of the act.” As to the economic loss doctrine, the Court agreed with Plaintiffs’ interpretation of Pennsylvania legal precedent on the issue, finding that the question of whether the economic loss doctrine applies necessarily turns on the “source of the duty alleged,” and, accordingly, a plaintiff may seek pecuniary damages under a negligence theory if the duty sought to be enforced arises independently of any contractual relationship between the parties. After remand to the trial court, additional motions practice, and initiating discovery, the parties reached a multimillion-dollar settlement that received final approval in December 2021.

Biscan v. Shields Health Care Group, Inc., 1:22-cv-10901-PBS (D. Mass). Jude Saris appointed Elizabeth Pollock Avery as Interim Co-Lead Counsel, and Hannah Barnett as member of the Interim Executive Committee in this data breach case against a healthcare company involving patients from several states.

In re Target Corporation Customer Data Breach Litig., 0:14-md-02522, MDL 2522 (D. Minn.). This multidistrict litigation arose out of the massive data breach that occurred in late 2013. Judge Magnuson appointed Gary Lynch to the five-member Plaintiffs’ Executive Committee that managed the litigation on behalf of all Plaintiffs’ tracks (consumer, financial institution, and shareholder). A settlement agreement which provided \$10 million to affected individual customers was granted final approval in November 2015. A separate settlement providing approximately \$39 million in relief to plaintiff financial institutions was granted final approval in May 2016.

Greater Chautauqua Federal Credit Union et al v. Kmart Corporation et al, No. 15-cv-02228 (N.D. Ill.). In this consolidated data breach case in which financial institutions were seeking recovery for losses sustained as a result of a 2014 data breach at one of the nation’s largest discount retail chains, Judge Lee appointed Gary Lynch to the Plaintiffs’ Executive Committee, and Katrina Carroll to serve as Liaison Counsel. A settlement was reached and approved in June 2017.

In re Ashley Madison Customer Data Security Breach Litig., MDL No. 2669 (E.D. Mo.). In this well-publicized data breach case Lynch Carpenter attorneys represented individuals whose highly sensitive account information was leaked from a social media company. The case was consolidated and transferred to the Eastern District of Missouri in December 2015. Judge Ross appointed Gary Lynch and Katrina Carroll (while with her prior firm) to the Executive Committee. A class settlement for \$11.2 million was given final approval in November 2017.

In re Vizio, Inc. Consumer Privacy Litig., MDL No. 2693 (C.D. Cal.). This action was filed on behalf of individuals who purchased Vizio “Smart TVs,” which contained software that collected information about the users in a manner that allegedly violates numerous consumer protection statutes. The case was consolidated and transferred to the Central District of California in April 2016, and Lynch Carpenter was appointed to the Plaintiffs’ Steering Committee. The case was settled and received final approval in 2019, providing for a \$17 million common fund.

Veridian Credit Union v. Eddie Bauer LLC, 2:17-cv-356 (W.D. Wash.). Lynch Carpenter served as co-lead counsel on behalf of a class of financial institutions in this class action against Eddie Bauer arising out of payment card data breach of the retailer’s point-of-sale systems in 2016, which led to the

exposure of up to 1.4 million payment cards. After overcoming a motion to dismiss and engaging in substantial discovery, the parties negotiated a class action settlement, which was approved in 2019. When defendant served the plaintiff with a Rule 68 offer of judgment for “make whole” relief, the district court dismissed the case as moot. About Berger Montague

Berger Montague is a full-spectrum class action and complex civil litigation firm, with nationally known attorneys highly sought after for their legal skills. The firm has been recognized by courts throughout the country for its ability and experience in handling major complex litigation, particularly in the fields of antitrust, securities, mass torts, civil and human rights, whistleblower cases, employment, and consumer litigation. In numerous precedent-setting cases, the firm has played a principal or lead role.

The *National Law Journal* routinely selected Berger Montague for its “Hot List” of top plaintiffs-oriented litigation firms in the United States. The select group of law firms recognized each year had done “exemplary, cutting-edge work on the plaintiffs’ side.” The *National Law Journal* ended its “Hot List” award in 2017 and replaced it with “Elite Trial Lawyers,” which Berger Montague has won from 2018-2021. The firm has also achieved the highest possible rating by its peers and opponents as reported in *Martindale-Hubbell* and was ranked as a 2021 “Best Law Firm” by *U.S. News - Best Lawyers*.

Currently, the firm consists of 71 lawyers; 15 paralegals; and an experienced support staff. Few firms in the United States have our breadth of practice and match our successful track record in such a broad array of complex litigation.

History of the Firm

Berger Montague was founded in 1970 by the late David Berger to concentrate on the representation of plaintiffs in a series of antitrust class actions. David Berger helped pioneer the use of class actions in antitrust litigation and was instrumental in extending the use of the class action procedure to other litigation areas, including securities, employment discrimination, civil and human rights, and mass torts. The firm’s complement of nationally recognized lawyers has represented both plaintiffs and defendants in these and other areas and has recovered billions of dollars for its clients. In complex litigation, particularly in areas of class action litigation, Berger Montague has established new law and forged the path for recovery.

The firm has been involved in a series of notable cases, some of them among the most important in the last 50 years of civil litigation. For example, the firm was one of the principal counsel for

plaintiffs in the *Drexel Burnham Lambert/Michael Milken* securities and bankruptcy litigation. Claimants in these cases recovered approximately \$2 billion in the aftermath of the collapse of the junk bond market and the bankruptcy of *Drexel* in the late 1980's. The firm was also among the principal trial counsel in the *Exxon Valdez Oil Spill* litigation in Anchorage, Alaska, a trial resulting in a record jury award of \$5 billion against Exxon, later reduced by the U.S. Supreme Court to \$507.5 million. Berger Montague was lead counsel in the *School Asbestos Litigation*, in which a national class of secondary and elementary schools recovered in excess of \$200 million to defray the costs of asbestos abatement. The case was the first mass tort property damage class action certified on a national basis. Berger Montague was also lead class counsel and lead trial counsel in the *Cook v. Rockwell International Corporation* litigation arising out of a serious incident at the Rocky Flats nuclear weapons facility in Colorado.

In the human rights area, the firm, through its membership on the executive committee in the *Holocaust Victim Assets Litigation*, helped to achieve a \$1.25 billion settlement with the largest Swiss banks on behalf of victims of Nazi aggression whose deposits were not returned after the Second World War. The firm also played an instrumental role in bringing about a \$4.37 billion settlement with German industry and government for the use of slave and forced labor during the Holocaust.

Berger Montague not only supports the idea of its Diversity, Equity and Inclusion (“DEI”) initiatives, it is a part of the DNA and fabric of the firm—internally amongst the Berger Montague family and in the way we practice law with co-counsel, opposing counsel, the courts, and with our clients. Environment & Public Health

Berger Montague lawyers are trailblazers in the fields of environmental class action litigation and mass torts. Our attorneys have earned their reputation in the fields of environmental litigation and mass torts by successfully prosecuting some of the largest, most well-known cases of our time. Our Environment & Public Health Group also prosecutes significant claims for personal injury, commercial losses, property damage, and environmental response costs. In 2016, Berger Montague was named an Elite Trial Lawyer Finalist in special litigation (environmental) by *The National Law Journal*.

- ***Cook v. Rockwell International Corporation***: In February 2006, the firm won a \$554 million jury verdict on behalf of thousands of property owners whose homes were exposed to plutonium from the former Rocky Flats nuclear weapons site northwest of Denver, Colorado. Judgment in the case was entered by the court in June 2008 which, with interest, totaled \$926 million. Recognizing this tremendous achievement, the Public Justice Foundation bestowed its prestigious Trial Lawyer of the Year Award for 2009 on Merrill G. Davidoff, David F. Sorensen, and the entire trial team for their "long and hard-fought" victory against "formidable corporate and government defendants." (No. 90-cv-00181-JLK (D. Colo.)). The jury verdict in that case was vacated on appeal in 2010, but on a second trip to the Tenth Circuit, Plaintiffs secured a victory in 2015, with the case then being sent back to the district court. A \$375 million settlement was reached in May 2016, and final approval by the district court was obtained in April 2017.

- ***In re Exxon Valdez Oil Spill Litigation:*** On September 16, 1994, a jury trial of several months duration resulted in a record punitive damages award of \$5 billion against the Exxon defendants as a consequence of one of the largest oil spills in U.S. history. The award was reduced to \$507.5 million pursuant to a Supreme Court decision. David Berger was co-chair of the plaintiffs' discovery committee (appointed by both the federal and state courts). Harold Berger served as a member of the organizing case management committee. H. Laddie Montague was specifically appointed by the federal court as one of the four designated trial counsel. Both Mr. Montague and Peter Kahana shared (with the entire trial team) the 1995 "Trial Lawyer of the Year Award" given by the Trial Lawyers for Public Justice. (No. A89-0095-CVCHRH (D. Alaska)).
- ***Drayton v. Pilgrim's Pride Corp.:*** The firm served as counsel in a consolidation of wrongful death and other catastrophic injury cases brought against two manufacturers of turkey products, arising out of a 2002 outbreak of *Listeria Monocytogenes* in the Northeastern United States, which resulted in the recall of over 32 million pounds of turkey – the second largest meat recall in U.S. history at that time. A significant opinion issued in the case is *Drayton v. Pilgrim's Pride Corp.*, 472 F. Supp. 2d 638 (E.D. Pa. 2006) (denying the defendants' motions for summary judgment and applying the alternative liability doctrine). All of the cases settled on confidential terms in 2006. (No. 03-2334 (E.D. Pa.)).
- ***In re Three Mile Island Litigation:*** As lead/liaison counsel, the firm successfully litigated the case and reached a settlement in 1981 of \$25 million in favor of individuals, corporations and other entities suffering property damage as a result of the nuclear incident involved. (C.A. No. 79-0432 (M.D. Pa.)).

Antitrust Cases

From **Judge Lorna G. Schofield**, of the U.S. District Court for the Southern District of New York:

"I'm not sure I've ever seen a case without a single objection or opt-out, so congratulations on that."

Transcript of the November 19, 2020 Hearing in ***Contant, et al. v. Bank of America Corp., et al.***, No. 1:17-cv-03139 (S.D.N.Y.).

From **Judge William E. Smith**, of the U.S. District Court for the District of Rhode Island:

“The degree to which you all litigated the case is – you know, I can’t imagine attorneys litigating a case more rigorously than you all did in this case. It seems like every conceivable, legitimate, substantive dispute that could have been fought over was fought over to the max. So you, both sides, I think litigated the case as vigorously as any group of attorneys could. The level of representation of all parties in terms of the sophistication of counsel was, in my view, of the highest levels. I can’t imagine a case in which there was really a higher quality of representation across the board than this one.”

Transcript of the August 27, 2020 Hearing in *In re Loestrin 24 Fe Antitrust Litigation*, No. 13-md-02472 (D.R.I.).

From **Judge Margo K. Brodie**, of the U.S. District Court for the Eastern District of New York:

“Class counsel has without question done a tremendous job in litigating this case. They represent some of the best plaintiff-side antitrust groups in the country, and the size and skill of the defense they litigated against cannot be overstated. They have also demonstrated the utmost professionalism despite the demands of the extreme perseverance that this case has required...”

From **Judge Madeline Cox Arleo**, of the U.S. District Court for the District of New Jersey praising the efforts of all counsel:

“I just want to thank you for an outstanding presentation. I don’t say that lightly . . . it’s not lost on me at all when lawyers come very, very prepared. And really, your clients should be very proud to have such fine lawyering. I don’t see lawyering like this every day in the federal courts, and I am very grateful. And I appreciate the time and the effort you put in, not only to the merits, but the respect you’ve shown for each other, the respect you’ve shown for the Court, the staff, and the time constraints. And as I tell my law clerks all the time, good lawyers don’t fight, good lawyers advocate. And I really appreciate that more than I can express.”

Transcript of the September 9 to 11, 2015 Daubert Hearing in **Castro v. Sanofi Pasteur**, No. 11-cv-07178 (D.N.J.) at 658:14-659:4.

From **Judge William H. Pauley, III**, of the U.S. District Court of the Southern District of New York:

“Class Counsel did their work on their own with enormous attention to detail and unflagging devotion to the cause. Many of the issues in this litigation . . . were unique and issues of first impression.”

* * *

“Class Counsel provided extraordinarily high-quality representation. This case raised a number of unique and complex legal issues The law firms of Berger Montague and Coughlin Stoia were indefatigable. They represented the Class with a high degree of professionalism, and vigorously litigated every issue against some of the ablest lawyers in the antitrust defense bar.”

In re Currency Conversion Fee Antitrust Litigation, 263 F.R.D. 110, 129 (2009).

From **Judge Faith S. Hochberg**, of the United States District court for the District of New Jersey:

“[W]e sitting here don’t always get to see such fine lawyering, and it’s really wonderful for me both to have tough issues and smart lawyers ... I want to congratulate all of you for the really hard work you put into this, the way you presented the issues, ... On behalf of the entire federal judiciary I want to thank you for the kind of lawyering we wish everybody would do.”

In re Remeron Antitrust Litig., Civ. No. 02-2007 (Nov. 2, 2005).

From U.S. District **Judge Jan DuBois**, of the U.S. District Court of the Eastern District of Pennsylvania:

“[T]he size of the settlements in absolute terms and expressed as a percentage of total damages evidence a high level of skill by petitioners ... The Court has repeatedly stated that the lawyering in the case at every stage was superb, and does so again.”

In re Linerboard Antitrust Litig., 2004 WL 1221350, at *5-*6 (E.D. Pa. 2004).

From **Judge Nancy G. Edmunds**, of the U.S. District Court of the Eastern District of Michigan:

“[T]his represents an excellent settlement for the Class and reflects the outstanding effort on the part of highly experienced, skilled, and hard working Class Counsel....[T]heir efforts were not only successful, but were highly organized and efficient in addressing numerous complex issues raised in this litigation[.]”

In re Cardizem CD Antitrust Litig., MDL No. 1278 (E.D. Mich., Nov. 26, 2002).

From **Judge Charles P. Kocoras**, of the U.S. District Court for the Northern District of Illinois:

“The stakes were high here, with the result that most matters of consequence were contested. There were numerous trips to the courthouse, and the path to the trial court and the Court of Appeals frequently traveled. The efforts of counsel for the class has [sic] produced a substantial recovery, and it is represented that the cash settlement alone is the second largest in the history of class action litigation. . . . There is no question that the results achieved by class counsel were extraordinary [.]”

Regarding the work of Berger Montague in achieving more than \$700 million in settlements with some of the defendants in *In Re Brand Name Prescription Drugs Antitrust Litigation*, 2000 U.S. Dist. LEXIS 1734, at *3-*6 (N.D. Ill. Feb. 9, 2000).

From **Judge Peter J. Messitte**, of the U.S. District Court for the District of Maryland:

“The experience and ability of the attorneys I have mentioned earlier, in my view in reviewing the documents, which I have no reason to doubt, the plaintiffs’ counsel are at the top of the profession in this regard and certainly have used their expertise to craft an extremely favorable settlement for their clients, and to that extent they deserve to be rewarded.”

Settlement Approval Hearing, Oct. 28, 1994, in *Spawd, Inc. and General Generics v. Bolar Pharmaceutical Co., Inc.*, CA No. PJM-92-3624 (D. Md.).

From **Judge Donald W. Van Artsdalen**, of the U.S. District Court for the Eastern District of Pennsylvania:

“As to the quality of the work performed, although that would normally be reflected in the not immodest hourly rates of all attorneys, for which one would expect to obtain excellent quality work at all times, the results of the settlements speak for themselves. Despite the

extreme uncertainties of trial, plaintiffs' counsel were able to negotiate a cash settlement of a not insubstantial sum, and in addition, by way of equitable relief, substantial concessions by the defendants which, subject to various condition, will afford the right, at least, to lessee-dealers to obtain gasoline supply product from major oil companies and suppliers other than from their respective lessors. The additional benefits obtained for the classes by way of equitable relief would, in and of itself, justify some upward adjustment of the lodestar figure."

Bogosian v. Gulf Oil Corp., 621 F. Supp. 27, 31 (E.D. Pa. 1985).

From **Judge Krupansky**, who had been elevated to the Sixth Circuit Court of Appeals:

"Finally, the court unhesitatingly concludes that the quality of the representation rendered by counsel was uniformly high. The attorneys involved in this litigation are extremely experienced and skilled in their prosecution of antitrust litigation and other complex actions. Their services have been rendered in an efficient and expeditious manner, but have nevertheless been productive of highly favorable result."

In re Art Materials Antitrust Litigation, 1984 CCH Trade Cases ¶65,815 (N.D. Ohio 1983).

From **Judge Joseph Blumenfeld**, of the U.S. District Court for the District of Connecticut:

Securities & Investor Protection Cases

From **Judge Brantley Starr** of the U.S. District Court for the Northern District of Texas, Dallas Division:

"I think y'all have been a model on how to handle a case like this. So I appreciate the diligence y'all have put in separating the fee negotiations until after the main event is resolved...Everything I see here is in great shape, and really a testament to y'all's diligence and professionalism. So hats off to y'all...So thanks again for your professionalism in handling this case and handling the stipulated settlement. Y'all are model citizens, and so I wish I could send everyone to y'all's school of litigation management."

From **Judge Jed Rakoff** of the U.S. District Court for the Southern District of New York:

Court stated that lead counsel had made “very full and well-crafted” and “excellent submissions”; that there was a “very fine job done by plaintiffs’ counsel in this case”; and that this was “surely a very good result under all the facts and circumstances.”

In re Merrill Lynch & Co., Inc. Securities, Derivative & ERISA Litigation, Master File No. 07-cv-9633(JSR)(DFE) (S.D.N.Y., July 27, 2009).

From **Judge Michael M. Baylson** of the U.S. District Court for the Eastern District of Pennsylvania:

“The Court is aware of and attests to the skill and efficiency of class counsel: they have been diligent in every respect, and their briefs and arguments before the Court were of the highest quality. The firm of Berger Montague took the lead in the Court proceedings; its attorneys were well prepared, articulate and persuasive.”

In re CIGNA Corp. Sec. Litig., 2007 U.S. Dist. LEXIS 51089, at *17-*18 (E.D. Pa. July 13, 2007).

From **Judge Stewart Dalzell** of the U.S. District Court for the Eastern District of Pennsylvania:

“The quality of lawyering on both sides, but I am going to stress now on the plaintiffs’ side, simply has not been exceeded in any case, and we have had some marvelous counsel appear before us and make superb arguments, but they really don’t come any better than Mrs. Savett... [A]nd the arguments we had on the motion to dismiss [Mrs. Savett argued the motion], both sides were fabulous, but plaintiffs’ counsel were as good as they come.”

In re U.S. Bioscience Secs. Litig., No. 92-0678 (E.D. Pa. April 4, 1994).

From **Judge Wayne Andersen** of the U.S. District Court for the Northern District of Illinois:

“[Y]ou have acted the way lawyers at their best ought to act. And I have had a lot of cases...in 15 years now as a judge and I cannot recall a significant case where I felt people were better represented than they are here...I would say this has been the best representation that I have seen.”

In re: Waste Management, Inc. Secs. Litig., No. 97-C 7709 (N.D. Ill. 1999).

From **Chancellor William Chandler, III** of the Delaware Chancery Court:

“All I can tell you, from someone who has only been doing this for roughly 22 years, is that I have yet to see a more fiercely and intensely litigated case than this case. Never in 22 years have I seen counsel going at it, hammer and tong, like they have gone at it in this

case. And I think that's a testimony – Mr. Valihura correctly says that's what they are supposed to do. I recognize that; that is their job, and they were doing it professionally.”

Ginsburg v. Philadelphia Stock Exchange, Inc., No. 2202 (Del. Ch., Oct. 22, 2007).

From **Judge Stewart Dalzell** of the U.S. District Court for the Eastern District of Pennsylvania:

“Thanks to the nimble class counsel, this sum, which once included securities worth \$149.5 million is now all cash. Seizing on an opportunity Rite Aid presented, class counsel first renegotiated what had been stock consideration into Rite Aid Notes and then this year monetized those Notes. Thus, on February 11, 2003, Rite Aid redeemed those Notes from the class, which then received \$145,754,922.00. The class also received \$14,435,104 in interest on the Notes.”

“Co-lead counsel ... here were extraordinarily deft and efficient in handling this most complex matter... they were at least eighteen months ahead of the United States Department of Justice in ferreting out the conduct that ultimately resulted in the write down of over \$1.6 billion in previously reported Rite Aid earnings. In short, it would be hard to equal the skill class counsel demonstrated here.”

In re Rite Aid Corp. Securities Litigation, 269 F. Supp. 2d 603, 605, n.1, 611 (E.D. Pa. 2003).

From **Judge Helen J. Frye**, United States District Judge for the U.S. District Court for the District of Oregon:

“In order to bring about this result [partial settlements then totaling \$54.25 million], Class Counsel were required to devote an unusual amount of time and effort over more than eight years of intense legal litigation which included a four-month long jury trial and full briefing and argument of an appeal before the Ninth Circuit Court of Appeals, and which produced one of the most voluminous case files in the history of this District.”

* * *

“Throughout the course of their representation, the attorneys at Berger Montague and Stoll, Stoll, Berne, Lokting & Shlachter who have worked on this case have exhibited an unusual degree of skill and diligence, and have had to contend with opposing counsel who also displayed unusual skill and diligence.”

In Re Melridge, Inc. Securities Litigation, No. CV 87-1426-FR (D. Ore. April 15, 1996).

From **Judge Marvin Katz** of the U.S. District Court for the Eastern District of Pennsylvania:

“[T]he co-lead attorneys have extensive experience in large class actions, experience that has enabled this case to proceed efficiently and professionally even under short deadlines

and the pressure of handling thousands of documents in a large multi-district action... These counsel have also acted vigorously in their clients' interests...."

* * *

"The management of the case was also of extremely high quality.... [C]lass counsel is of high caliber and has extensive experience in similar class action litigation.... The submissions were of consistently high quality, and class counsel has been notably diligent in preparing filings in a timely manner even when under tight deadlines."

Commenting on class counsel, where the firm served as both co-lead and liaison counsel in *In re Ikon Office Solutions, Inc. Securities Litigation*, 194 F.R.D. 166, 177, 195 (E.D. Pa. 2000).

"In the proceedings it has presided over, this court has become directly familiar with the specialized, highly competent, and effective quality of the legal services performed by Merrill G. Davidoff, Esq. and Martin I. Twersky, Esq. of Berger Montague...."

* * *

"Examination of the experience-studded biographies of the attorneys primarily involved in this litigation and review of their pioneering prosecution of many class actions in antitrust, securities, toxic tort matters and some defense representation in antitrust and other litigation, this court has no difficulty in approving and adopting the hourly rates fixed by Judge Aldrich."

As always I appreciate the – your extraordinary dedication to your – to the class and the very obvious backwards and forwards familiarity you have with the case and level of preparation and articulateness today. It's a pleasure always to have you before me...Class Counsel [] generated this case on their own initiative and at their own risk. Counsel's enterprise and ingenuity merits significant compensation...Counsel here are justifiably proud of the important result that they achieved."

“You are extraordinarily impressive. And I thank you for being here, and for your candid, non-evasive response to every question I have. I was extremely skeptical at the outset of this morning. You have allayed all of my concerns and have persuaded me that this is an important issue, and that you have done a great service to the class. And for that reason, I am going to approve your settlement in all respects, including the motion for attorneys’ fees. And I congratulate you on your excellent work.”

Civil/Human Rights Cases

From **Deputy Treasury Secretary Stuart E. Eizenstat**:

“We must be frank. It was the American lawyers, through the lawsuits they brought in U.S. courts, who placed the long-forgotten wrongs by German companies during the Nazi era on the international agenda. It was their research and their work which highlighted these old injustices and forced us to confront them. Without question, we would not be here without them.... For this dedication and commitment to the victims, we should always be grateful to these lawyers.”

In his remarks at the July 17, 2000, signing ceremony for the international agreements which established the German Foundation to act as a funding vehicle for the payment of claims to Holocaust survivors.

Insurance Litigation

From **Judge Janet C. Hall**, of the U.S. District Court of the District of Connecticut:

Noting the “very significant risk in pursuing this action” given its uniqueness in that “there was no prior investigation to rely on in establishing the facts or a legal basis for the case....[and] no other prior or even now similar case involving parties like these plaintiffs and a party like these defendants.” Further, “the quality of the representation provided to the plaintiffs ... in this case has been consistently excellent.... [T]he defendant[s] ... mounted throughout the course of the five years the case pended, an extremely vigorous defense.... [B]ut for counsel’s outstanding work in this case and substantial effort over five years, no member of the class would have recovered a penny.... [I]t was an extremely complex and substantial class ... case ... [with an] outstanding result.”

Regarding the work of Berger Montague attorneys Peter R. Kahana and Steven L. Bloch, among other co-class counsel, in ***Spencer, et al. v. The Hartford Financial Services Group, Inc., et al.***, in the Order approving the \$72.5 million final settlement of this action, dated September 21, 2010 (No. 3:05-cv-1681, D. Conn.).

Customer/Broker Arbitrations

From **Robert E. Conner**, Public Arbitrator with the National Association of Securities Dealers, Inc.:

“[H]aving participated over the last 17 years in 400 arbitrations and trials in various settings, ... the professionalism and the detail and generally the civility of everyone involved has been not just a cause for commentary at the end of these proceedings but between ourselves [the arbitration panel] during the course of them, and ... the detail and the intellectual rigor that went into the documents was fully reflective of the effort that was made in general. I wanted to make that known to everyone and to express my particular respect and admiration.”

From **Judge Joseph F. Bataillon**, United States District Judge for the U.S. District Court for the District of Nebraska:

[P]laintiffs’ counsel succeeded in vindicating important rights. ... The court is familiar with “donning and doffing” cases and based on the court’s experience, defendant meat packing companies’ litigation conduct generally reflects “what can only be described as a deeply-entrenched resistance to changing their compensation practices to comply with the requirements of FLSA.” (citation omitted). Plaintiffs’ counsel perform a recognized public service in prosecuting these actions as a ‘private Attorney General’ to protect the rights of underrepresented workers.

The plaintiffs have demonstrated that counsel’s services have benefitted the class. ... The fundamental policies of the FLSA were vindicated and the rights of the workers were protected.

Regarding the work of Berger Montague among other co-counsel in ***Morales v. Farmland Foods, Inc.***, No. 8:08-cv-504, 2013 WL 1704722 (D. Neb. Apr. 18, 2013).

“The nature of the instant application obliges the Court to make this point clear: In my fifteen years on the bench, no case has been litigated with more skill, tenacity

and legal professionalism than this case. The clients, corporate and individual, should be proud of the manner in which their legal interests were brought before and presented to the Court by their lawyers and law firms.”

and

“...the Court would be remiss if it did not commend class counsel and all those who worked for firms representing the thousands of current and former employees of Kodak for the outstanding job they did in representing the interests of their clients. For the last several years, lead counsel responsibilities were shared by Shanon Carson Their legal work in an extraordinarily complex case was exemplary, their tireless commitment to seeking justice for their clients was unparalleled and their conduct as officers of the court was beyond reproach.”

Ms. Young also fights for victims of child sexual abuse against their offenders and large institutions.

Before joining the firm, Dena worked for prominent law firms in the Philadelphia region where she worked on personal injury and mass tort cases involving dangerous and defective medical devices, pharmaceutical, and consumer products including Talcum Powder, Transvaginal Mesh, Roundup, Risperdal, Viagra, Zofran, and Xarelto. She also assisted in the prosecution of cases

on behalf of the U.S. Government and other government entities for violations of federal and state false claims acts and anti-kickback statutes.

Stephen R. Basser, Partner, Barrack Rodos & Bacine

Barrack Rodos & Bacine (“Barrack”) is a nationally prominent 20-attorney litigation firm with offices in Philadelphia, New York, and San Diego. Barrack possesses a significant depth of class action experience, talent, and financial resources to contribute to this action. The firm has prosecuted major, complex class actions, including consumer, antitrust, and securities class actions, for over 46 years. Barrack has successfully recovered over \$15 billion for class members, with several cases securing recoveries in excess \$1 billion, and has received numerous judicial accolades respecting its work and accomplishments.

Stephen R. Basser, a partner at Barrack, Rodos & Bacine, is a graduate of the American University, Washington D.C. (B.A., with Honors, 1973) and Temple University School of Law, Philadelphia, Pennsylvania (J.D. *cum laude* 1976), where, after being awarded the honor of “Highest Grade and Distinguished Class Performance” by its nationally renowned clinical trial litigation program, he was selected to serve as a student prosecutor under the supervision of the United States Attorney’s Office for the Eastern District of Pennsylvania. Mr. Basser was admitted to the bars of the Supreme Court of Pennsylvania in 1976, and the Supreme Court of California in 1985. He is also a member of the bars of the United States Circuit Courts of Appeals for the Sixth and Ninth Circuits, and the United States District Courts for the Southern, Central, Northern, and Eastern Districts of California, the District of Colorado, the Eastern District of Pennsylvania, the Eastern District of Michigan, and the Eastern District of Wisconsin.

Over his 28 years as a partner with the Barrack firm, Mr. Basser has been a lead counsel, co-lead counsel, executive committee member, and/or principal supporting team attorney in a wide variety of significant, complex mega-class actions, alleging, *inter alia* acts of negligence, misrepresentation, deceptive sales and marketing practices, the design, manufacture and sale of dangerously defective products, automotive vehicles, or machines, violations of the Racketeering Influence Corrupt Organizations Act (“RICO”), and/or the federal and state consumer, antitrust, and securities laws and statutes by domestic and foreign corporations.

He has played a key role in cases involving mechanical, automotive, aeronautical, and manufacturing defects, processes, issues, and products. Prior to joining Barrack, Mr. Bassar was a member of a large defense firm based in Philadelphia where he represented several Fortune 500 companies in cases alleging design or manufacturing defect-related damages and personal injuries, including, for example, Pepsico (exploding defectively manufactured bottles, causing blindness); Bell-Sikorsky Helicopters (defective rotor blades causing helicopter failure and serious personal injuries); Foseco Industries (defectively designed ingots used in steel fabrication, causing fire explosion and deaths); Litton Industries (defective street lantern causing permanent injury and severe burns); and Owens-Corning Fiberglass (mass tort cases involving inhalation of toxic asbestos particles causing mesothelioma and asbestosis injury).

Subsequent to joining Barrack, Mr. Bassar has served in leadership roles in cases involving NHTSA investigations. For example, he served as plaintiffs' co-lead counsel in *In re Bridgestone Tire Secs. Litig.*, No. 3-010017 (M.D. Tenn.) (settled for \$30 million), which required mastery of complex, highly technical tire and Ford Explorer vehicle rollover related design, engineering, and manufacturing facts and documents, as well as related company representations. In 2020, Mr. Bassar was appointed to plaintiffs' executive committee in *In re Toyota Hybrid Brake Defect Litig.*, No. 4:20-CV-00127 ALM (E.D. Tex.), involving defectively designed brake booster pump assembly systems. In 2021, he was appointed to plaintiffs' executive committee in *In re Nissan CVT Defect Litig.*, No. CV-00150 (M.D. Tenn.), concerning the design and manufacture of continuous variable transmissions, in which a recovery valued in excess of \$300 million was approved by the court in March 2022. In late 2022, Mr. Bassar was appointed to plaintiffs Executive Committee in *In re Chrysler Pacifica Fire Recall Products Liability Litigation*, Case Number 22-md-3040, (E.D. Mich.), which involves a hybrid vehicle battery spontaneous fire defect that has been the subject of NHTSA investigation.

Mr. Bassar played a significant role in assisting plaintiffs' lead counsel in identifying, retaining, and developing cyber-expert witness testimony in *In re Anthem Data Security Breach Litig.*, No. 5:15-md-02617-LHK (N.D. Cal.) (\$115 million recovery). And in April, 2022 - further

indicating his skill and experience with respect to matters involving technical products defects and inhalation of toxic substances - he was enlisted by lead counsel to serve as a member of the Science and Expert Executive Subcommittee in *In re Philips CPAP, Bi-Level PAP Mechanical Ventilator Prods. Liab. Litig.*, No. 21-mc-1230-JFC, MDL No. 3014 (W.D. Pa.), alleging injuries caused by the inhalation or digestion of toxic foam particulate matter and chemical compounds.

Mr. Bassar served as a co-lead counsel in *In Re: McKesson HBOC Secs. Litig.*, No. CV-99-20743 RMW (N.D. Cal.), achieving settlements totaling \$1.052 billion. He served as a co-lead and/or *de-facto* executive committee counsel working with a consortium of four firms in the so-called “*Senior Annuity Sales and Marketing Practices*” class actions litigated from 2005 through 2015, achieving settlements valued in the aggregate between \$552 million and \$1.273 billion, on behalf of senior citizen consumers and asserting claims against several well-known insurance companies under consumer protection and elder abuse statutes, and RICO.

Mr. Bassar also has a significant record of accomplishment with respect to first-chair jury trial experience. For example, he was lead counsel and lead trial attorney in the hard fought *In re Apollo Group, Inc. Secs. Litig.*, No. CV 04-2147-PHX-JAT (D. Ariz.), which resulted in a \$145 million recovery in 2012 after a unanimous jury verdict was rendered in favor of the class in 2008 following over two months of trial. United States District Judge James A. Teilborg commented after the successful jury verdict that “trial counsel brought to this courtroom ... **extraordinary** talent and preparation,” ... professionalism... civility... integrity” adding that “[w]hat I have seen has been truly **exemplary**.” *Id.* (emphasis in original).

Mr. Bassar, an “AV Preeminent” peer review rated by Martindale Hubbell, has received repeated “Super Lawyer” recognitions and designations as one of Southern California’s “Top 100 High Stakes Litigators,” and has advanced legal education by giving formal presentations to the Federal Judicial Workshop for Judges of the Ninth Circuit (Feb. 2011), law students at a Vanderbilt Law School symposium entitled “*Battle in The Valley of The Sun; Strategies Tactics and Honor in Litigation*” (Oct. 2013), and at American Association of Justice conferences.

Barrack can and shall commit whatever financial resources and staffing are necessary to zealously prosecute this matter. It is respectfully requested that Stephen R. Bassar be appointed as a member of Plaintiffs' Steering Committee.

Practice Areas

Antitrust & Competition Law

Today, on a global scale, consolidated corporate entities exercise dominating market power, but proper enforcement of antitrust law ensures a fair, competitive marketplace. Milberg prosecutes complex antitrust class actions against large, well-funded corporate defendants in healthcare, technology, agriculture, and manufacturing. Our leading practitioners successfully represent plaintiffs affected by price-fixing, monopolization, monopoly leveraging tying arrangements, exclusive dealing, and refusals to deal. The firm continues aggressively vindicating rights of plaintiffs victimized by antitrust violations, holding companies accountable for anticompetitive behavior.

Complex Litigation

With 50 years of vetted success, Milberg handles complex, high-stakes cases at any stage of the litigation process. Our attorneys have experience litigating complex cases for business and plaintiffs outside of class action context, business torts, contract disputes, anti-SLAPP motions, corporations, LLCs, partnerships, real estate, and intellectual property. The repeated success of our attorneys against well-funded adversaries with top-tier counsel has established Milberg as the go-to firm for complex litigation.

Consumer Products

Milberg's consumer litigation group focuses on protecting victims of deceptive marketing and advertising of goods and services, or those who have bought defective products. Our attorneys are experienced in handling a wide array of consumer protection lawsuits, including breach of contract, failure to warn, false or deceptive advertising of goods and services, faulty, dangerous, or defective products, warranty claims, unfair trade practices, and notable product cases. Milberg has achieved real-world recoveries for clients, often requiring corporations to change the way they do business. Our team of attorneys has extensive experience representing plaintiffs against well-resourced and sophisticated defendants.

Consumer Services

Consumers have rights, and companies providing consumer services have a legal obligation to abide by contractual agreements made with customers. Companies must also follow state and federal laws that prohibit predatory, deceptive, and unscrupulous business practices. Milberg's Consumer Services litigation group protects consumers whose rights have been violated by improperly charged fees, predatory and discriminatory lending, illegal credit reporting practices, and invasion of privacy. We also enforce consumer rights by upholding The Fair Credit Reporting Act and Telephone Consumer Protection Act.

Class Action Lawsuits

Milberg pioneered federal class action litigation is recognized as a leader in defending the rights of victims of corporate and large-scale wrongdoings. We have the manpower, resources, technology, and experience necessary to provide effective representation in nationwide class action lawsuits. Our attorneys have led class actions resulting in settlements up to billions of dollars across a variety of practice areas, including defective consumer products, pharmaceutical drugs, insurance, securities, antitrust, environmental and toxic torts, consumer protection, and breach of contract.

Dangerous Drugs & Devices

For some patients, medication and medical devices improve their lives. For others, the drugs and equipment have questionable benefits, at best, and serious, unintended side effects at worst. Taking on drug and device makers requires a law firm that can stand up to the world's largest, most powerful companies. Our defective drug lawyers have held leadership roles in many national drug and device litigations, recovering billions of dollars in compensation.

Data Breach, Cyber Security & Biometric Data Lawsuits

Technology changes faster than laws regulate it. Staying ahead of legal technical issues requires a law firm that can see the full picture of innovation and apply past lessons to navigate fast-moving developments, putting consumers ahead of corporate interests. Our data breach and privacy lawyers work at the cutting edge of technology and law, creating meaningful checks and balances against technology and the companies that wield it. Cyber security threats continue evolving and posing new consumer risks. Milberg will be there every step of the way to protect consumer privacy and hold big companies accountable.

Environmental and Toxic Torts Litigation

Litigation is key in fighting to preserve healthy ecosystems and hold environmental lawbreakers accountable. But in today's globalized world, pollutants—and polluters—are not always local. Corporations have expanded their reach and ability to cause harm. Our environmental litigation practice focuses on representing clients in mass torts, class actions, multi-district litigation, regulatory enforcement, citizen suits, and other complex environmental and toxic tort matters. The companies involved in harmful environmental practices are large, wealthy, and globally influential, but as an internationally recognized plaintiffs' firm, Milberg has the strength and resources to present clients seeking to enforce their environmental rights against well-financed corporations—wherever they operation.

Finance & Insurance Litigation

Big banks and public insurance firms are obligated by their corporate charters to put shareholders' interests ahead of client interests. However, that doesn't mean they can deceive clients to profit at their expense. Milberg's attorneys handle hundreds of insurance-related disputes, including first party bad faith insurance cases, business interruption cases, and hurricane insurance cases. As one of the nation's top class action law firms, we are well-positioned to pursue insurance bad faith cases on a statewide or nationwide basis.

Public Client Representation

The ability of governments to serve and protect their residents is often threatened by the combination of lower revenues and rising costs. Budget shortfalls are increasing in part because private companies externalize costs, but while corporate profits grow, public interest pays the price. Effectuating meaningful change through litigation, Milberg partners with state and local governments to address the harms facing its residents. Internationally, Milberg's Public Client Practice has achieved success against global powerhouse corporations, including drug, tobacco, mining, and oil and gas companies.

Securities Litigation

Over 50 years ago, Milberg pioneered litigation claims involving investment products, securities, and the banking industry by using class action lawsuits. Our litigation set the standard for case theories, organization, discovery, methods of settlement, and amounts recovered for clients. Milberg continues to aggressively pursue these cases on behalf of institutional and individual investors harmed by financial wrongdoing. Inventors of securities class actions, Milberg has decades of experience holding companies accountable both in the United States and globally.

Whistleblower & Qui Tam

Blowing the whistle on illegal or unethical conducted is a form of legally protected speech. Milberg's whistleblower attorneys have led actions that returned hundreds of millions of dollars in ill-gotten gains, resulting in significant awards of our clients. Our legacy of standing up to corporate power extends to advocating for greater transparency. In addition to representing whistleblowers, we fight back against corporate-backed laws seeking to deter them from making disclosures.

The Honorable Benita Y. Pearson
 United States District Judge
 United States District Court for the Northern District of Ohio
 313 Thomas D. Lambros United States Federal Bldg and Courthouse

Re: *Norfolk Southern Corp., et al*, Case No. 4:23-cv-00268

Dear Judge Benita Pearson:

Pursuant to this Honorable Court's Order of March 8, 2023, I respectfully file this application for appointment to the Plaintiffs' Steering Committee ("PSC"). I am a partner with the firm Aylstock, Witkin, Kreis & Overholtz, PLLC and I am willing and available to serve in whatever capacity this Honorable Court sees fit.

Over the course of my legal career, I have demonstrated the ability to work cooperatively with all parties, and I possess all the requisite professional experience and organizational skills to advance this litigation toward resolution. As a member of the PSC, I will completely dedicate myself and my practice to not only meeting but exceeding the obligations required by this role.

For over sixteen years, I have litigated many diverse, complex cases and I have been appointed and/or worked closely with a variety of PSCs in cases scattered around the country. Senior District Judge John R. Padova of the Eastern District of Pennsylvania appointed me to the Plaintiffs' Steering Committee involving thousands of plaintiffs who alleged injuries after implantation of the Essure Medical device. In addition to helping delegate PSC assignments, I deposed numerous corporate witnesses, developed the medical and liability themes, worked closely with expert witnesses, drafted and argued numerous motions and participated in the successful mediation and resolution of the litigation.

In the *In Re Ethicon, Inc. Pelvic Repair Systems Products Liability Litigation*, MDL 2327, I reviewed thousands of documents, deposed many corporate witnesses, 30(b)(6) corporate designees, and other fact witnesses and drafted and argued various legal briefs. I was involved in several trials which resulted in multimillion dollar jury verdicts or mid-trial settlements, including *Engleman v. Ethicon, et al.*, Case No. 2:13-cv-12936, where I, along with my co-counsel, obtained a \$20 Million verdict.

In the Abilify MDL, I again played a critical role and my work substantially contributed to the overall common benefit and global settlement in that MDL. In the Abilify MDL, I took the depositions of numerous corporate witnesses, 30(b)(6) corporate designees and bellwether fact witnesses, and developed trial themes. I became an important member of the Abilify litigation team and, along with

others, spent considerable time with our trial consultant focusing the key Abilify trial strategy and creating a trial package, including visual demonstratives, that could be used in any trial throughout the country.

Most recently, in the *3M Products Liability Litigation, MDL No. 2885* - the largest MDL in history - I worked cooperatively with numerous plaintiff and defense lawyers in nearly every facet of the litigation. Among other things, I helped develop the scientific and liability theories, worked closely with key expert witnesses, negotiated discovery disputes and assisted in or tried 7 bellwether trials, including *Beal v. 3M Co. et al, Case No. 7:20-cv-00006*, where I, along with my partners, achieved a \$77.5M verdict on behalf of Mr. Beal, an army veteran who suffered hearing loss after using 3M's combat arms ear plugs. To date, this is the largest single-plaintiff verdict in the 3M litigation involving defective earplugs 3M sold to our military.

I earned my Bachelor of Arts degree at the University of West Florida and attended Thomas M. Cooley School of Law where I graduated *cum laude* with my Juris Doctor degree. I am presently licensed to practice before all State courts in Florida and Minnesota, the United States District Court for the Northern, Middle and Southern Districts of Florida and the United States District Court of Minnesota.

As a member of the PSC, I will always endeavor to lead through example and hard work. I understand that leading a litigation is not just the appointment of a title, but a great responsibility to ensure that the hard work of complex litigation gets accomplished through a subtle mix of providing direction and support, setting expectations and ensuring they are met, ensuring team members receive assignments commensurate with their skills, working through failures, celebrating successes, and a whole lot of rolling up my sleeves and simply getting to work.

In conclusion, I believe that I possess the requisite professional knowledge, experience, and skills necessary to be appointed to the PSC. While my experience has conferred upon me a wealth of substantive and procedural legal knowledge, it has also engrained in me the ability to facilitate cross-functional cooperation with all co-counsel and opposing counsel. I have demonstrated my willingness and availability, as well as my firm's willingness and availability, to work cooperatively with all counsel involved, and my commitment and my firm's commitment to this litigation. I consider the opportunity to serve as a member of the PSC in this important litigation a tremendous honor and great responsibility. If I am appointed, I will continue to work hard day in and day out to fulfill my duties as set forth by the Court.

Respectfully Submitted,

Daniel J. Thornburgh
